An Anthropological Toolkit David Zeitlyn,2022-09-13 Presenting sixty theoretical ideas David Zeitlyn asks How to write about anthropological theory without making a specific theoretical argument David Zeitlyn has written a wryly engaging short book on essentially why we should not become theoretical partisans that indeed being a serious theorist means accepting precisely that principle Michael Herzfeld Harvard University To answer he offers a series of mini essays about an eclectic collection of theoretical concepts that he has found helpful over the years The book celebrates the muddled inconsistencies in the ways that humans live their messy lives There are however still patterns discernible the actors can understand what is going on they see an event unfolding in ways that are familiar as belonging to a certain type and therefore Zeitlyn suggests so can researchers From the introduction This book promotes an eclectic multi faceted anthropology in which multiple approaches are applied in pursuit of the limited insights which each can afford I do not endorse any one of these idea as supplying an exclusive path to enlightenment I absolutely do not advocate any single position As a devout nonconformist I hope that the following sections provide material ammunition and succour to those undertaking nuanced anthropological analysis and their kin in related disciplines Mixing up or combining different ideas and approaches can produce results that in their breadth and richness are productive for anthropology and other social sciences reflecting the endless complexities of real life This is my response to the death of grand theory I see our task as learning how to deal with that bereavement and how to resist the siren lures of those promising synoptic overviews This book is relevant to anthropology communication studies cultural studies and sociology
