The Approximate Minimization of Functionals James W. Daniel,1971      Nonlinear Functional Analysis and Applications Louis B. Rall,2014-05-10 Nonlinear Functional Analysis and Applications provides information pertinent to the fundamental aspects of nonlinear functional analysis and its application This book provides an introduction to the basic concepts and techniques of this field Organized into nine chapters this book begins with an overview of the possibilities for applying ideas from functional analysis to problems in analysis This text then provides a systematic exposition of several aspects of differential calculus in norms and topological linear spaces Other chapters consider the various settings in nonlinear functional analysis in which differentials play a significant role This book discusses as well the generalized inverse for a bounded linear operator whose range is not necessarily closed The final chapter deals with the equations of hydrodynamics which are usually highly nonlinear and difficult to solve This book is a valuable resource for mathematicians Readers who are interested in nonlinear functional analysis will also find this book useful      **Nonlinear Programming** J. B. Rosen,O. L. Mangasarian,K. Ritter,2014-05-10 Nonlinear Programming contains the proceedings of a Symposium on Nonlinear Programming held in Madison Wisconsin on May 4 6 1970 This book emphasizes algorithms and related theories that lead to efficient computational methods for solving nonlinear programming problems This compilation consists of 17 chapters Chapters 1 to 9 are concerned primarily with computational algorithms while Chapters 10 to 13 are devoted to theoretical aspects of nonlinear programming Certain applications of nonlinear programming are considered in Chapters 14 to 17 The algorithms for nonlinear constraint problems investigation of convergence rates and use of nonlinear programming for approximation are also covered in this text This publication is a good source for students and researchers concerned with nonlinear programming      Catalog of Copyright Entries.
