Voices In The City:

Voices in the City Anita Desai,1965 Based on the life of the middle class intellectuals of Calcutta it is an unforgettable story of a Bohemian brother and his two sisters caught in the cross currents of changing social values In many ways the story reflects a vivid picture of India s social transition a phase in which the older elements are not altogether dead and the emergent ones not fully evolved *Voices in the city* Anita Desai,1990 *Voices in the Hills* Fred Thaumazo,1913

Voices in the Night Flora Annie Webster Steel,1900 The new year was already some hours old but the world to which it had come was still dark Dark with a curious obscurity that was absolutely opaque yet faintly luminous because of the white fog which lay on all things and hid them from the stars for the sky above was clear cold almost frosty That was why the fog born not of cool vapour seeking for cloud life among the winds of heaven but of hot smoke loving the warmth of dust and ashes clung so closely to the earth to its birthplace It was an acrid bitter smoke not even due to the dead hearthfires of a dead day since they like all else pertaining to the domestic life of India give small outward sign of existence but to the smouldering piles of litter and refuse which are lit every evening upon the outskirts of human habitation Dull heaps with a minimum of fire a maximum of smoke where the humanity which has produced the litter the refuse gathers for gossip or for warmth Even in the fields beyond the multitude of men where some long limbed peasant watching his hope of harvest dozes by a solitary fire this same smoke rises in a solid column until beaten down by the colder moister air above it drifts sideways to spread like a vast cobweb over the dew set carpet of green corn Taken from prologue *The Lure of the City* David James
