

VOODOO ECONOMICS

Cartoons by William Hamilton

I don't understand all this fuss about "stress." We used to call it "nervous tension" and we loved it.

Voodoo Economics:

Against Empire Michael Parenti,1995-05 Recommended by Jeff City Lights Books Richly informed and written in an engaging style *Against Empire* exposes the ruthless agenda and hidden costs of the U S empire today Documenting the pretexts and lies used to justify violent intervention and maldevelopment abroad Parenti shows how the conversion to a global economy is a victory of finance capital over democracy As much of the world suffers unspeakable misery and the Third Worldization of the United States accelerates civil society is impoverished by policies that benefit rich and powerful transnational corporations and the national security state Hard won gains made by ordinary people are swept away

War and Peace Howard Fast,2016-09-16 In more than 100 essays written over a three year period for the New York Observer Howard Fast looks with horror at the official violence inflicted on Nicaragua El Salvador Grenada Panama and Iraq and the unofficial violence that is taking place in the cities of the United States In *War and Peace* Fast summons us to face the wars and the social disintegration that degraded the Reagan and Bush years with all the explanations and excuses stripped away He dwells on the monumental folly of the Cold War and shows us repeatedly what we could have done with the billions spent on planes bombs and guns if we had spent them on the education and safety of our children on housing medical care rebuilding the cities and what we can still do in the future As in Swift Yahoos populate the essays of this book the drug dealers the local political hacks the anti Semites the racists the women bashers the arms traffickers the whole unsavory cast As in Mencken boobs run loose in the White House and in the halls of Congress From time to time a Candide like character named D emas Yiddish for the the truth appears and asks embarrassing questions about the ways of our civilisation which his interlocutor is hard pressed to answer And yet after Howard Fast recounts the inanity and brutality of these years he offers a humane vision of what America and the rest of the world could be These essays should hold a place in 20th century letters as a statement of unsurpassed passion on the theme war and peace

Taking the Voodoo Out of Economics Robert J. Genetski,1986

Real Cities Steve Pile,2005-05-01 What is real about city life *Real Cities* shows why it is necessary to take seriously the more imaginary fantastic and emotional aspects of city life Drawing inspiration from the work of Walter Benjamin Sigmund Freud and Georg Simmel Pile explores the dream like and ghost like experiences of the city Such experiences are he argues best described as phantasmagorias The phantasmagorias of city life though commonplace are far from self evident and little understood This book is a path breaking exploration of urban phantasmagorias grounded empirically in a series of unusual and exciting case studies In this study four substantial phantasmagorias are identified dreams magic vampires and ghosts The investigation of each phantasmagoria is developed using a wide variety of clear examples Thus voodoo in New York and New Orleans shows how ideas about magic are forged within cities Meanwhile vampires reveal how specific fears about sex and death are expressed within and circulate between cities such as London and Singapore Taken together such examples build a unique picture of the diverse roles of the imaginary fantastic and the

emotional in modern city life What is real about the city has radical consequences for how we think about improving city life for all too often these are over looked in utopian schemes for the city Real Cities forcefully argues that an appreciation of urban phantasmagorias must be central to what is considered real about city life *Faith and Politics in America* X.M.,Dr X M,2005-05-25 The 2004 election indicated a shift in American politics a return to moral values as the basis for electing our representatives But which party was really more driven by moral values For those who voted Republican this book confirms what we knew all along the election was about moral values and morality won But this was only the first step we really should be analyzing all political issues based on moral principles and selecting our political representatives accordingly For those who voted Democrat we know that our choice was also made based on moral values and we cannot believe how Christians could have voted any differently on many issues This book analyzes each political issue in the context of the Bible and attempts to determine the most Christian position It is apparent that both parties still have a long ways to go to fully adhere to religious teachings but in the end agreeing on moral positions for each issue could bring both parties closer together and allow America to stand united once again The Alleged Budget Surplus, Social Security & Voodoo Economics Allen William Smith,2000 This book deals with the budget surplus myth the Social Security Trust Fund and voodoo economics economic malpractice over the past 20 years It exposes the deliberate deception of the public by politicians from both parties that has led to the erroneous belief that the government has surplus money that is available for financing a large tax cut or new government programs The book points out that there is no significant non Social Security surplus today and that the projected surpluses for the next decade are little more than wishful thinking based on unrealistic economic assumptions The book includes a detailed history of the economic policies and economic malpractice of the past two decades and analyzes the economic proposals of presidential candidates Al Gore and George W Bush **Congressional Record** United States. Congress,1993 Economics E. K. Hunt,Howard J. Sherman,1990 *Safire's Political Dictionary* William Safire,2008 Featuring more than one thousand new rewritten and updated entries this reference on American politics explains current terms in politics economics and diplomacy *The Age of Deficits* Iwan W. Morgan,2009 This first historical study of U S budget policy covering the last three decades places the budget at the center of modern American politics and adds an important dimension to the understanding of recent events **What's the Big Idea?** George Lois,Bill Pitts,1993 Even if you don t realize it Lois has probably affected your buying habits From the man who created I want my MTV here are inside tips on creating great advertising and marketing techniques In today s saturated media environment Lois shows how to get your message heard noticed and remembered Photographs throughout Attack Politics Emmett H. Buell, Lee Sigelman,2008 Ask most Americans and they ll tell you that presidential campaigns get dirtier and more negative with every election This text suggests that this may not be as true as we think and shows that over the last dozen elections negativity may have been well publicised but hasn t increased *The Nation* ,1904 *Here and There in Economics* Martin Bronfenbrenner,1988

Eisenhower and the Management of Prosperity John W. Sloan,1991 Three years out of eight President Eisenhower achieved a balanced budget

The Presidency of George Bush John Robert Greene,2000 This comprehensive history of George Bush s administration paints a striking portrait of a positive moderate whose accomplishments have often been underrated 14 photos

The New Republic Herbert David Croly,1908 *Dynamics of Democracy* Peverill Squire,1997 This comprehensive text on American Government highlights two recurrent themes that politics involves conflict and that the rules for decision making in government help determine the outcomes of that conflict Separate and expanded chapters discuss civil liberties and civil rights There is a new chapter on domestic policy which supplements the federal budget chapter by examining how government manages the economy regulates business and promotes social welfare New extended discussions are included on the Second Amendment the rising importance of the Internet and talk radio and how congressional ethics address pressing political issues The book contains boxed features to provide comparative biographies of key historical and contemporary political actors and is intended for the American Government and Politics political science and social science markets

The Power of Babble Norman Solomon,1992 Just in time for the height of the 1992 presidential campaign an essential dictionary for anyone seeking to understand the political doubletalk Includes examples taken from actual speeches of politicians from Abe Lincoln to George Bush Solomon co authored *Unreliable Sources A Guide to Detecting Bias in News Media*
