Work Less Make More:

Work Less, Make More James Schramko,2017-12-10 In 2006 whilst working in a full time job James Schramko wrote this in a notebook MY GOALS create automated income so that I am independently wealthy and enjoy my life passionately Within three years he d built his own business and achieved those goals At which point he set about helping his coaching clients do the same Leveraging his knowledge and experience they were able to make more money while reducing their work hours Significantly This freed them up to spend more time living It s easy to think working less and making more is something available only to a blessed few But James has proven over and over again that this is not the case All you require is An open mind The ability to focus on what s important An understanding of business models and A willingness to challenge your assumptions Work Less Make More will break down all the barriers standing between you and the above It will teach you how to effectively leverage yourself your team and your business via Increasing your personal effectiveness Planning and goalsetting Learning focus and the power of 64 4 Building a team Creating an offer that converts Leveraging the Profit Formula to boost cash flow Understanding the importance of Customer Lifetime Value Choosing the right business model Removing compromise from your life This book is for you if you are A business owner big or small Currently in a job with a hard ceiling on how much you can earn Overworked and underpaid Stressed out and missing out on precious time with family and friends If you want to build a business that gives you financial peace of mind while allowing you to enjoy life NOW not later Work Less Make More will get you on your way It will help ensure the business you re building will work for you not the other way a [Work Less, Make More, and Have Fun in Your Business](#) George Horrigan,2024 Work Less Make More and Have Fun in Your Business shows business owners and leaders how to create a successful thriving and immensely profitable business that is enjoyable to operate while providing the personal freedom they desire Work Less Make More and Have Fun in Your Business provides a systematic approach that eliminates the guesswork trial and error and uncertainty associated with growing a business scaling operations and increasing its profitability It addresses all aspects of a business with a step by step approach and practical tools to establish the company owners long for It also addresses the six core areas of an entity with easy to understand straightforward and extremely effective processes that enable business owners and leaders to achieve the goals for their business in less hours than they are currently spending on it By using the noted Structure of Success methodology which is built upon George Horrigan s experience with over 1 200 businesses during the past 21 years Work Less Make More and Have Fun in Your Business shows how to seamlessly put all the functions of a company together to obtain the results they want Horrigan shows how to utilize innovation to break through plateaus or operational ceilings they may be incurring beat their competition and grow and scale their profitability while getting it ready for their eventual exit **To Save the Earth, Work Less!: The Crucial Environmental Issue No One Is Talking About** Charles Siegel,2023-10-17 With well chosen data Siegel demonstrates how countries like The Netherlands have created a

prosperous economy with low unemployment due to letting employees work fewer hours To Save the Earth Work Less is an urgent thought provoking resource This is a quick potent read that will spark conversation and provide food for thought on essential questions of the American dream what it actually means to feel satisfied in life and nothing less than the fate of the world Booklife Creating Jobs Americans believe we need rapid economic growth to create jobs and avoid unemployment but that is because we do not have the choice of working shorter hours The Dutch have a better model By law they can choose to work part time which means they avoid unemployment by creating the amount of work people actually want rather than by creating full time jobs We have reached the point where economic growth no longer brings significant benefits International comparisons show that higher income no longer improves a nation s happiness health or educational achievement significantly after it reaches less than two thirds of the current American level And postwar America s push to promote automobile use to stimulate the economy actually made our cities less livable The average American employee works 25% more than the average Dutch employee but the available measures of well being show that all the extra work doesn t do us any good In the course of this century most nations of the world could emerge from poverty and have a comfortable middle class standard of living if we can avoid ecological crisis But that is a big if To create a sustainable economy with a high quality of life it is essential for the world to follow the Dutch model of shorter work hours and slower growth rather than the postwar American model of long work hours and rapid growth But no mainstream politician is talking about the crucial issue of work time

Work Less Jon Peirce,2024-01-02 You can t have a healthy economy with an unhealthy work force Work Less proposes ways to reduce work hours and keep workers happier healthier and more productive Recent years have revealed just how stressed out many workers are While the trend to longer hours has been developing for several decades the trend s effects have been aggravated during the pandemic by the growing use of Zoom and other new technologies for meetings with clients customers and co workers Exhausted and fed up today s workers are starting to insist on shorter hours and greater flexibility as to where they do their work There is growing consensus that the forty hour week the norm since the 1940s has outlived its usefulness And there is an urgent need for new work schedules that adequately reflect the far greater intensity of work today as well as the greater family demands on a labour force made up of almost fifty percent women who bear the brunt of domestic duties Work Less offers practical scheduling suggestions to employers and workers and numerous policy options for government policy makers to improve working conditions
