**Reading the World** John R. Brookes,2013-10-28 This book

charts my journey as I travel the globe from my armchair by reading contemporary literature a trek that I started in London England back in May 2009 At this time it occurred to me that whilst a real life trip to every country in the world would be impossible due to lack of time work commitments and the cost I could explore the globe through literature in the company of international authors In doing this I mapped out a travel list of well over 270 destinations to visit every UN recognised state and a few more contentious ones and have been reading a book from each country as part of my literary expedition For particularly large countries such as China and Russia I am reading a book from each major region of that country In Volume 1 of my travels you will find details of the countries that I visited in my first year from England to Russia as well as reviews of the books that I have read and details of the authors and publication dates *Ethics Through Literature* Brian Stock,2007 Why do we read Based on a series of lectures delivered at the Historical Society of Israel in 2005 Brian Stock presents a model for relating ascetic and aesthetic principles in Western reading practices He begins by establishing the primacy of the ethical objective in the ascetic approach to literature in Western classical thought from Plato to Augustine This is understood in contrast to the aesthetic appreciation of literature that finds pleasure in the reading of the text in and of itself Examples of this long standing tension as displayed in a literary topos first outlined in these lectures which describes scenes of reading are found in the works of Peter Abelard Dante and Virginia Woolf among others But as this original and often surprising work shows the distinction between the ascetic and aesthetic impulse in reading while necessary is often misleading As he writes All Western reading it would appear has an ethical component and the value placed on this component does not change much

over time Tracing the ascetic component of reading from Late Antiquity through the Renaissance and beyond to Coleridge and Schopenhauer Stock reveals the ascetic or ethical as a constant with the aesthetic serving as opposition parallel force and handmaiden underscoring the historical consistency of the reading experience through the ages and across various media *Rethinking Empathy through Literature* Meghan Marie Hammond, Sue J. Kim, 2014-07-11 In recent years a growing field of empathy studies has started to emerge from several academic disciplines including neuroscience social psychology and philosophy Because literature plays a central role in discussions of empathy across disciplines reconsidering how literature relates to feeling with others is key to rethinking empathy conceptually This collection challenges common understandings of empathy asking readers to question what it is how it works and who is capable of performing it The authors reveal the exciting research on empathy that is currently emerging from literary studies while also making productive connections to other areas of study such as psychology and neurobiology While literature has been central to discussions of empathy in divergent disciplines the ways in which literature is often thought to relate to empathy can be simplistic and or problematic The basic yet popular postulation that reading literature necessarily produces empathy and pro social moral behavior greatly underestimates the complexity of reading literature empathy morality and society Even if empathy were a simple neurological process we would still have to differentiate the many possible kinds of empathy in relation to different forms of art All the complexities of literary and cultural studies have still to be brought to bear to truly understand the dynamics of literature and empathy [A Reference Guide for English Studies](#) Michael J. Marcuse, 1990-01-01 This ambitious undertaking is designed to acquaint students teachers and researchers with reference sources in any branch of English studies which Marcuse defines as all those subjects and lines of critical and scholarly inquiry presently pursued by members of university departments of English language and literature Within each of 24 major sections Marcuse lists and annotates bibliographies guides reviews of research encyclopedias dictionaries journals and reference histories The annotations and various indexes are models of clarity and usefulness and cross references are liberally supplied where appropriate Although cost conscious librarians will probably consider the several other excellent literary bibliographies in print such as James L Harner s *Literary Research Guide* Modern Language Assn of America 1989 larger academic libraries will want Marcuse s volume Jack Bales Mary Washington Coll Lib Fredericksburg Va Library Journal **Library of the World's Best Literature, Ancient and Modern** Charles Dudley Warner, Hamilton Wright Mabie, Lucia Isabella (Gilbert) Runkle, 1902 **The Idea of World Literature** John Pizer, 2006-04-15 Johann Wolfgang von Goethe introduced the concept of Weltliteratur in 1827 to describe the growing availability of texts from other nations Although the term World Literature is widely used today there is little agreement on what it means and even less awareness of its evolution In this wide ranging work John Pizer traces the concept of Weltliteratur in Germany beginning with Goethe and continuing through Heinrich Heine Karl Marx and Friedrich Engels to the present as he explores its importation into the

United States in the 1830s and the teaching of World Literature in U S classrooms since the early twentieth century Pizer demonstrates the concept s ongoing viability through an in depth reading of the contemporary Syrian German transnational novelist Rafik Schami He also provides a clear methodology for World Literature courses in the twenty first century Pizer argues persuasively that Weltliteratur can provide cohesion to the study of World Literature today In his view traditional World Lit classes are limited by their focus on the universal elements of literature A course based on Weltliteratur however promotes a more thorough understanding of literature as a dialectic between the universal and the particular In a practical guide to teaching World Literature by employing Goethe s paradigm he explains how to help students navigate between the extremes of homogenization on the one hand and exoticism on the other learning both what cultures share and what distinguishes them Everyone who teaches World Literature will want to read this stimulating book In addition anyone interested in the development of the concept from its German roots to its American fruition will find *The Idea of World Literature* immensely rewarding [Library of the World's Best Literature: A-Z](#) Charles Dudley Warner,Hamilton Wright Mabie,Lucia Isabella Gilbert Runkle,George H.
