## **World War I In Post Cards:**

*World War I in Postcards* John Laffin, 1989 Almost three hundred postcards are reproduced in this book to reflect responses to World War I

**The Great War Through Picture Postcards** Guus de Vries, 2016-01-30 During World War I the picture postcard was the most important means of communication for the soldiers in the field and their loved ones at home with an estimated 30 billion of them sent between 1914 and 1918 A Postcard from home offered the soldier in the trenches a short escape from their daily hell while receiving a postcard from the man on the front line was literally a sign of life These postcards create a vivid record of life at home and abroad during the Great War both from the messages they carries and the pictures on the cards themselves The depiction of war on the contemporary postcards is extremely diverse The ways in which the postcards depict the war differs greatly from simple enthusiasm patriotism and propaganda to humour satire and bitter hatred Other portray the wishes and dreams nostalgia homesickness and pin ups of the soldiers the technological developments of the armies not to mention the daily life and death on the battlefield including the horrific reality of piles of bodied and mass graves Altogether this extraordinarily vivid contemporary record of the Great War offers a unique and details insight on the minds and mentality of the soldiers and their families who lived and died in the war to end all wars

**Collection of World War I English Postcards of Soldiers and Sweethearts** World War I Postcard Collection, 1914

**Postcards in the Library** Norman D Stevens, 2014-01-09 Postcards individually and collectively contain a great deal of information that can be of real value to students and researchers Postcards in the Library gives compelling reasons why libraries should take a far more active and serious interest in establishing and maintaining postcard collections and in encouraging the use of

these collections It explains the nature and accessibility of existing postcard collections techniques for acquiring arranging preserving and handling collections and ways to make researchers and patrons aware of these collections Postcards in the Library asserts that in most cases existing postcard collections are a vastly underutilized scholarly resource Editor Norman D Stevens urges librarians to help change this since postcards as items for mass consumption and often with no apparent conscious literary or social purpose are a true reflection of the society in which they were produced Stevens claims that messages written on postcards may also reveal a great deal about individual and or societal attitudes and ideas Chapters in Postcards in the Library are written by librarians who manage postcard collections postcard collectors and researchers Some of the authors have undertaken major research projects that demonstrate the ways in which postcards can be used in research and that have begun to establish a standard methodology for the analysis of postcards They write about major postcard collections including the Institute of Deltiology and the Curt Teich Postcard Archives the use of postcards for scholarly research postcard conservation and preservation arrangement and organization and importance and value Postcards in the Library describes the postcard collections in a variety of libraries of different kinds and sizes and indicates very real ways in which the effective use of postcard collections can result in and contribute to substantive scholarly publications It also offers advice and suggestions on the myriad issues that libraries face in handling these ephemeral fragments of popular culture Special collections librarians postcard collectors postcard dealers and historical societies will find the information in Postcards in the Library refreshing and practical Libraries with established postcard collections or those thinking about developing postcard collections will use it as a valuable planning tool and start to finish guide
