The Second World War Tank Crisis Dick Taylor,2021-06-30 British Second World War tanks performed so badly that it is difficult to bring to mind any other British weapon of the period that provokes such a strong sense of failure Unfortunately many of the accusations appear to be true British tanks were in many ways a disgrace But why was Britain the country that invented them consistently unable to field tanks of the required quality or quantity throughout the conflict This perceived failure has taken on the status of a myth but like all myths it should not be accepted at face value it should be questioned and analyzed And that is what Dick Taylor does in this closely researched and absorbing study He looks at the flaws in British financial policy tank doctrine design production and development before and throughout the war years which often had fatal consequences for the crews who were sent to fight and to be murdered in mechanical abortions Their direct experience of

the shortcomings of these machines is an important element of the story He also considers how British tanks compared to those of the opposition and contrasts tank production for the army with the production of aircraft for the RAF during the same period His clear sighted account goes on to explain how later in the conflict British tank design improved to the point where their tanks were in many ways superior to those of the Americans and Germans and how they then produced the Centurion which was one of the best main battle tanks of the post war era *The Encyclopedia of Tanks and Armoured Fighting Vehicles* Christopher F. Foss,2002 Tanks and armoured fighting vehicles have revolutionised modern warfare dominating the battlefield in conflicts all over the world with their firepower armour and mobility Featured in this book are over 900 tanks armoured personnel carriers self propelled guns reconnaissance vehicles and armoured cars **World Directory of Modern Military Vehicles** Bart Harmannus Vanderveen,1983 [The Observer's Fighting Vehicles Directory, World War 2](#) Bart Harmannus Vanderveen,1972 *World Defence Systems* ,2002 *The Tank* ,1961 **The American Military Armored Car** Al J. Clemens,1969
