Starfall A Triptych:

Starfall Lars Kleberg, 1997 An imaginative tour de force Starfall consists of three dramatic dialogues among real people in imagined settings Anchoring each of the dialogues is the great Russian film director and theoretician Sergei Eisenstein whose artistic theories in all their formations and reformations run throughout the book illustrating the influences that affected the Soviet art world in the period between the two world wars In *The Aquarians* Eisenstein meets Bertolt Brecht in the first class compartment of a train heading from Berlin to Moscow in 1932 They spend the night discussing and arguing about everything from the use of Renaissance magic in art to some kind of Wagnerian Gesamtkunstwerk in which everything in art is connected *The Sorcerer's Apprentices* takes place at a meeting held in Moscow on April 14 1935 on the occasion of performances given during a visit by a noted Chinese actor Mei Lan Fang and his troupe the prime representatives of early twentieth century classical Chinese theater Conceived as a series of speeches by noted members of the Soviet theater and film circles Eisenstein again *The Sorcerer's Apprentices* contrasts the Russian theater with that of the Chinese the German antifascist emigre theater of Brecht and Erwin Piscator and even the avant garde British drama as represented by Gordon Craig Ash Wednesday has Eisenstein engaged in a dialogue with Mikhail Bakhtin They speak about German culture in particular Eisenstein's desire to stage Wagner's *The Valkyrie* which Bakhtin appears to object to on both political and artistic grounds the influence of astrology in Soviet literary circles and jazz music as a symbol of pure art Filled with references familiar and arcane biographical and political steeped in literary history from the mid nineteenth century to the mid twentieth and peppered with references to the writings of such dissimilar thinkers as Giordano Bruno Rabelais Goethe and Antonin Artaud *Starfall* will appeal to all readers interested in the developments of twentieth century dramatic art **Great Walls of Discourse and Other Adventures in Cultural China** Haun Saussy, 2020-03-23 China and the West us and them the subject and the non subject these and other dualisms furnish China watchers both inside and outside China with a pervasive ready made set of definitions immune to empirical disproof But what does this language of essential difference accomplish The essays in this book are an attempt to cut short the recitation of differences and to answer this question In six interpretive studies of China the author examines the ways in which the networks of assumption and consensus that make communication possible within a discipline affect collective thinking about the object of study Among other subjects these essays offer a historical and historiographical introduction to the problem of comparison and deal with translation religious proselytization semiotics linguistics cultural bilingualism writing systems the career of postmodernism in China and the role of China as an imaginary model for postmodernity in the West Against the reigning simplifications these essays seek to restore the interpretation of China to the complexity and impurity of the historical situations in which it is always caught The chief goal of the essays in this book is not to expose errors in interpreting China but to use these misunderstandings as a basis for devising better methodologies for comparative studies **The Proletarian Dream** Sabine Hake, 2017-09-11 The

proletariat never existed but it had a profound effect on modern German culture and society As the most radicalized part of the industrial working class the proletariat embodied the critique of capitalism and the promise of socialism But as a collective imaginary the proletariat also inspired the fantasies desires and attachments necessary for transforming the working class into a historical subject and an emotional community This book reconstructs this complicated and contradictory process through the countless treatises essays memoirs novels poems songs plays paintings photographs and films produced in the name of the proletariat *The Proletarian Dream* reads these forgotten archives as part of an elusive collective imaginary that modeled what it meant and even more important how it felt to claim the name proletarian with pride hope and conviction By emphasizing the formative role of the aesthetic the eighteen case studies offer a new perspective on working class culture as a oppositional culture Such a new perspective is bound to shed new light on the politics of emotion during the main years of working class mobilizations and as part of more recent populist movements and cultures of resentment Aldo and Jeanne Scaglione Prize for Studies in Germanic Languages and Literatures 2018

Reading East Asian Writing Michel Hockx,Ivo Smits,2014-02-05 This book presents contributions by thirteen scholars of Chinese and Japanese literature whose work is characterised by a strong interest in literary theory They focus in particular on the various new theories that have emerged during the past two decades uprooting traditional forms of understanding literary texts their function their readership and their interpretation Often confined to discussion of a specific country or area these theories have been criticised for their Western bias This collection breaks through these barriers providing an opportunity for scholars of two closely related yet often independently studied cultures to present and compare their views on specific theories of literature to discuss the advantages and shortcomings of those theories and to consider specific difficulties related to the East West dimension

Red Aesthetics Todd Cronan,2021-11-04 *Red Aesthetics* offers a new way to think about art and politics focusing on the revolutionary work of Aleksandr Rodchenko Bertolt Brecht and Sergei Eisenstein between the wars Todd Cronan shows how these three artists photographs dramas films and writings centered on class conflict differ from current left orthodoxies rooted in empathy Writing against liberal pieties Cronan contends following Brecht that empathy is not the solution to our problems but more like the source of them
