**Threshold Concepts in Physical Education** Fiona C. Chambers,David Aldous,Anna Bryant,2020-11-17 This innovative

and user friendly book uses a design thinking approach to examine transformative learning and liminality in physical education. Covering theory and practice it introduces the important idea of threshold concepts for physical education helping physical educators to introduce those concepts into curriculum pedagogy and assessment. The book invites us to reflect on what is learned in through and about physical education to identify its core threshold concepts. Once identified the book explains how the learning of threshold concepts can be planned using principles of pedagogical translation for all four learning domains: cognitive, psychomotor, affective and social. The book is arranged into three key sections which walk the reader through the underpinning concepts, use movement case studies to explore and generate threshold concepts in physical education using design thinking approach and finally provide a guiding Praxis Matrix for PE Threshold Concepts that can be used for physical educators across a range of school and physical activity learning contexts. Outlining fundamental theory and useful practical teaching and coaching advice, this book is invaluable reading for all PE teacher educators, coach educators and any advanced student coach or teacher looking to enrich their knowledge and professional practice.
