Strangers In The Land:

Strangers in the Land Michael Luo, 2025-04-29 From New Yorker editor and writer Michael Luo a vivid urgent history of two centuries of Chinese exclusion and the birth of anti Asian feeling in America In 1889 when the Supreme Court upheld the Chinese Exclusion Act a measure barring Chinese laborers from entering the United States that remained in effect for more than fifty years Justice Stephen Johnson Field characterized the Chinese as a people residing apart by themselves They were Field concluded strangers in the land Today there are more than twenty two million people of Asian descent in the United States yet this label still hovers over Asian Americans In *Strangers in the Land* Luo traces anti Asian feeling in America to the first wave of immigrants from China in the mid nineteenth century laborers who traveled to California in search of gold and railroad work Their communities almost immediately faced mobs of white vigilantes who drove them from their workplaces and homes In his rich character driven history Luo tells stories like that of Denis Kearney the sandlot demagogue who became the face of the anti Chinese movement and of activists who fought back like Massachusetts Senator George Frisbie Hoar and newspaperman Wong Chin Foo After the halt on immigration in 1889 the Chinese American community who remained struggled to survive and thrive on the margins of American life In 1965 when LBJ s Immigration and Nationality Act forbade discrimination by national origin America opened its doors wide to families like those of Luo s parents but he finds that the centuries of exclusion of Chinese Americans left a legacy many Asians are still treated and feel like outsiders today *Strangers in the Land* is a sweeping narrative of a forgotten chapter in American history and a reminder that America s present reflects its exclusionary past

The Jewish Annual ,1939 *Solidarity Or Survival?* A. T. Lane, 1987-04-21 A study of European immigrants who traveled westward across the Atlantic in search of opportunity from 1830 1924 *Earth's Man of Color* Dr. Oliver Akamnonu, Professor Ndu Eke, 2009-11-30 A distinction is drawn between two very similarities based on the two types of characters that the same type of society produced Orié Puzo and Nmake who hail from Angwa and the adjoining Ocha remained back in the village and made their lives almost permanently there rarely knowing what was going on in the outside world but being nonetheless greatly influenced by the latter Their daily chores are dictated by the daily basic necessities of the moment and they have little to worry perpetually about A lot of their life is controlled by the dictations and predictions of the traditional medicine man who occasionally misfires in his predictions which have no scientific basis supporting them His situation is often taken advantage of by the political class who have little or nothing to lose even if the polity collapses But Livinus on the other end of the spectrum emerges from the civil war and through a dint of luck and hard work studies hard and becomes a doctor He even proceeds overseas despite a close shave by arsonists He specializes and returns home to Akunwanta town from where he is again catapulted by fate and focus to become the governor of his state after a battle between titans eliminates the principal contestants He at first meant well and had the intention of helping to reform society Post election litigation and his lack of the economic leverage almost cost him his

mandate But again fate plays a hard one on him and because of his lack of cash he gets tied up to the economic vampires of his society He is bailed out by a coalition of these vampires and narrowly reclaims his mandate only after colossal bribing of umpires who were least expected to soil their hands He decides never to go begging ever again and hence he delves headlong into the rot and decay not by his will but by the circumstances prevailing around him

Property and Political Order in Africa Catherine Boone,2014-02-10 In sub Saharan Africa property relationships around land and access to natural resources vary across localities districts and farming regions These differences produce patterned variations in relationships between individuals communities and the state This book captures these patterns in an analysis of structure and variation in rural land tenure regimes In most farming areas state authority is deeply embedded in land regimes drawing farmers ethnic insiders and outsiders lineages villages and communities into direct and indirect relationships with political authorities at different levels of the state apparatus The analysis shows how property institutions institutions that define political authority and hierarchy around land shape dynamics of great interest to scholars of politics including the dynamics of land related competition and conflict territorial conflict patron client relations electoral cleavage and mobilization ethnic politics rural rebellion and the localization and nationalization of political competition

Strangers in the Land John Higham,2002 This book attempts a general history of the anti foreign spirit that I have defined as nativism It tries to show how American nativism evolved its own distinctive patterns how it has ebbed and flowed under the pressure of successive impulses in American history how it has fared at every social level and in every section where it left a mark and how it has passed into action Fundamentally this remains a study of public opinion but I have sought to follow the movement of opinion wherever it led relating it to political pressures social organization economic changes and intellectual interests from the Preface taken from back cover
