

LIES FROM THE PAST HAVE BEEN BURIED FOR YEARS –
NOW THEY'RE BEING DUG UP . . .

A woman with long blonde hair, wearing a red and orange striped one-piece swimsuit, is floating on her back in clear blue water. Her arms are outstretched, and she has a serene expression. In the background, a large, dark, multi-story building is partially submerged in the water, with some windows and architectural details visible. The overall scene is set in a bright, sunny environment with ripples on the water's surface.

Summers Secret:

The Hidden History of the JFK Assassination Lamar Waldron, 2013-10-21 INSIDE THE CRIME OF THE CENTURY This fascinating history draws on never before published information to reveal the Mafia conspiracy that led to the assassination of John F Kennedy Answering the questions that have haunted Americans for decades Why and how was JFK murdered The Hidden History of JFK s Assassination draws on exclusive interviews with more than two dozen associates of John and Robert Kennedy in addition to former FBI Secret Service military intelligence and Congressional personnel who provided critical first hand information The book also uses government files including the detailed FBI confession of notorious Mafia godfather Carlos Marcello to simply and clearly reveal who killed JFK Using information never published before the book uses Marcello s own words to his closest associates to describe the plot His confession is also backed up by a wealth of independent documentation This book builds on the work of the last Congressional committee to investigate JFK s murder which concluded that JFK was probably assassinated as a result of a conspiracy and that godfathers Santo Trafficante and Carlos Marcello had the motive means and opportunity to assassinate President Kennedy However it also draws on exclusive files and information not available to Congress that have only emerged in recent years to fully explain for the first time how Marcello and Trafficante committed and got away with the crime of the 20th century Deep in the Heart James McEnteer, 2004-07-30 Cowboy politics is in When George W Bush announced a new American policy of pre emptive attack against potential enemies in 2002 he ushered in the triumph of Texas values over the American agenda This book traces in lucid and engaging style the fascinating influence of the Texas warrior culture from the Alamo to the present day This is not a history of Texas but much Texas history is entwined with American national politics This book locates such diverse phenomena as Cold War politics the Kennedy assassination U S Mexican immigration policies Texas death penalty practices and recent U S Middle East policy in the context of this Alamo attitude While the Texas influence has always been strong and has ebbed and flowed never has it been stronger especially as a guiding force in American foreign policy Today people around the world perceive this Manifest Destiny swaggering style in our foreign policy Because of its sheer size its border wars with Mexico its ten year history as an independent republic and its having been settled by a warrior culture originating in the English Scottish borderlands and arriving in Texas via the southern Appalachians Texas is unique in American politics The author does not assert that Texas causes or is the sole cause of our various policies or of so many violent events Rather he demonstrates convincingly that the Texas warrior culture provides a fascinating context for national politics in a way that no other state s political culture can claim The Words and Music of Sting Christopher R. Gabel, Christopher Gable, 2008-12-30 Sting has successfully established himself as one of the most important singer songwriters in Western popular music over the past twenty years His affinity for collaborative work and disparate musical styles has pushed his music into an astonishing array of contexts but no matter what the style or who the collaborator Sting s voice always remains

distinct and this fact has earned him success amongst a correspondingly broad audience The Words and Music of Sting subdivides Sting s life and works into rough periods of creative activity and offers a fantastic opportunity to view Sting s many stylistic changes within a coherent general framework After analyzing Sting s musical output album by album and song by song author Christopher Gable sums up Sting s accomplishments and places him on the continuum of influential singer songwriters showing how he differs and relates to other artists of the same period Aside from his commercial success Sting is also interesting for the use of recurring themes in his lyrics such as family relationships love war spirituality and work and for his use of jazz and world music to illustrate or work against the meaning of a song Sting s life also sheds light on his music as his working class roots in Newcastle England are never far removed from his international superstardom Throughout his life he has been musically open minded and inquisitive always seeking out new styles and often incorporating them into his compositions
