London's Urban Landscape Christopher Tilley,2019-05-07 London s Urban Landscape is the first major study of a global city to adopt a materialist perspective and stress the significance of place and the built environment to the urban landscape Edited by Christopher Tilley the volume is inspired by phenomenological thinking and presents fine grained ethnographies of the practices of everyday life in London In doing so it charts a unique perspective on the city that integrates ethnographies of daily life with an analysis of material culture The first part of the volume considers the residential sphere of urban life discussing in detailed case studies ordinary residential streets housing estates suburbia and London s mobile linear village of houseboats The second part analyses the public sphere including ethnographies of markets a park the social rhythms of a taxi rank and graffiti and street art London s Urban Landscape returns us to the everyday lives of people and the manner in which they understand their lives The deeply sensuous character of the embodied experience of the city is invoked in the thick descriptions of entangled relationships between people and places and the paths of movement between them What stories do door bells and house facades tell us about contemporary life in a Victorian terrace How do antiques acquire value and significance in a market How does living in a concrete megastructure relate to the lives of the people who dwell there These and a host of other questions are addressed in this fascinating book that will appeal widely to all readers interested in London or contemporary urban life

The Material Culture of Failure Timothy Carroll,David Jeevendrampillai,Aaron Parkhurst,Julie Shackelford,2017-05-18 What happens when objects behave unexpectedly or fail to do what they should Who defines failure Is failure always bad Rather than viewing concepts such as failure incoherence or incompetence as

antithetical to social life this innovative new book examines the unexpected and surprising ways in which failure can lead to positive and creative results Combining both theoretical and ethnographic approaches to failure *The Material Culture of Failure* explores how failure manifests itself and operates in a variety of contexts The editors present ten ethnographic encounters of failure from areas as diverse as design textiles religion beauty and physical failure covering Europe North America Asia Africa and the Arabian Gulf Identifying common themes such as interpersonal national and religious articulations of power and identity the book shows some of the underlying assumptions that are revealed when materials fail designs crumble or things develop unexpectedly The first anthropological study dedicated to theorizing failure this innovative collection offers fresh insights based on the latest scholarship Destined to stimulate a new area of research the book makes a vital contribution to material culture studies and related social science theory *The Autocar* ,1906 **Ars Quatuor Coronatorum** ,1910 **Public School Magazine** ,1900 **Suburban Urbanities** Laura Vaughan,2015-11-12 Suburban space has traditionally been understood as a formless remnant of physical city expansion without a dynamic or logic of its own *Suburban Urbanities* challenges this view by defining the suburb as a temporally evolving feature of urban growth Anchored in the architectural research discipline of space syntax this book offers a comprehensive understanding of urban change touching on the history of the suburb as well as its current development challenges with a particular focus on suburban centres Studies of the high street as a centre for social economic and cultural exchange provide evidence for its critical role in sustaining local centres over time Contributors from the architecture urban design geography history and anthropology disciplines examine cases spanning Europe and around the Mediterranean By linking large scale city mapping urban design scale expositions of high street activity and local scale ethnographies the book underscores the need to consider suburban space on its own terms as a specific and complex field of social practice *Gardeners' Chronicle* ,1908

Citizenship, Democracy and Belonging in Suburban Britain David Jeevendrampillai,2021-10-12 A study of the conditions of being a citizen belonging and democracy in suburban Britain this book focuses on understanding how a community takes on the social responsibility and pressures of being a good citizen through what they call stupid events festivals and parades Building a community is perceived to be an important and necessary act to enable resilience against the perceived threats of neoliberal socio economic life such as isolation selfishness and loss of community *Citizenship Democracy and Belonging in Suburban Britain* explores how authoritative knowledge is developed maintained and deployed by this group as they encounter other social projects such as the local council planning committee or academic projects researching participation in urban planning The activists who call themselves the Seething Villagers model their community activity on the mythical ancient village of Seething where moral tales of how to work together love others and be a community are laid out in the *Seething Tales* These tales include Seething facts such as the fact that the ancient Mountain of Seething was destroyed by a giant The assertion of fact is central to the mechanisms of play and the refusal of expertise at the heart of the

Seething community The book also stands as a reflexive critique on anthropological practice as the author examines their role in mobilising knowledge and speaking on behalf of others Citizenship Democracy and Belonging in Suburban Britain is of interest to anthropologists urban studies scholars geographers and those interested in the notions of democracy inclusion citizenship and anthropological practice Gilbert and Sullivan and Their Operas François Cellier, Cunningham V.
