Unacceptable Face:

The Unacceptable Face, 1974 *The Uses Of Autobiography* Julia Swindells Homerton College, Cambridge., 2014-03-18
First Published in 1995 Autobiography is commonly understood in terms of giving readers insight into the private lives of unique individuals but in recent years the autobiographical project has absorbed a wide variety of social concerns The contributors to this book explore a range of the uses of autobiography from the nineteenth century to the present day and from Africa USA the Middle East France New Zealand and the United Kingdom The chapters draw on a number of approaches including historical and literary methods to represent the autobiography s purpose of establishing communities of interest and social change **Allen's Dictionary of English Phrases** Robert Allen, 2008-08-07 Allen s Dictionary of English Phrases is the most comprehensive survey of this area of the English language ever undertaken Taking over 6000 phrases it explains their meaning explores their development and gives citations that range from the Venerable Bede to Will Self Crisply and wittily written the book is packed with memorable and surprising detail whether showing that salad days comes from Antony and Cleopatra that flavour of the month originates in 1940s American ice cream marketing or even that we ve been calling a spade a spade since the sixteenth century Allen s Dictionary of English Phrases is part of the Penguin Reference Library and draws on over 70 years of experience in bringing reliable useful and clear information to millions of readers around the world making knowledge everybody s property *In the Sign of the Golden Wheel* Sangharakshita (Bhikshu), 1996 The miracle of the talking calf rumors of black magic and lamas with supernormal powers Sangharakshita s third volume of memories is full of curious episodes that could only happen in India In the Sign of the Golden Wheel recounts the unique experiences of an English Buddhist monk working in the mid 1950s to revive Buddhism in the land of its birth From his hermitage in the foothills of the Himalayas Sangharakshita travels across India to the movie world of Bombay and on to a moving and dramatic climax addressing hundreds of thousands of ex Untouchables in thirty mass meetings in just four days to console and encourage them following the sudden death of their hero the remarkable Dr Ambedkar only weeks after their mass conversion to Buddhism Brimming with life and color this book is a notable addition to the world of travel literature as we follow the spiritual adventures of an unorthodox and extraordinary Englishman Marvellously full of detail Times Higher Educational Supplement *The Structural Crisis of Capital* István Mészáros, 2010-03-01 In this collection of trenchant essays and interviews István Mészáros the world s preeminent Marxist philosopher and winner of the 2008 Libertador Award for Critical Thought the Bolivar Prize lays bare the exploitative structure of modern capitalism He argues with great power that the world s economies are on a social and ecological precipice and that unless we take decisive action to radically transform our societies we will find ourselves thrust headfirst into barbarism and environmental catastrophe Mészáros however is no pessimist He believes that the multiple crises of world capitalism will encourage the working class to demand center stage in the construction of a new system of production and distribution designed to meet human needs

rather than serve the relentless pursuit of profit a struggle which is already underway in places such as Venezuela As John Bellamy Foster says in the foreword to this indispensable book Today the structural crisis of capital provides the historical setting for a new revolutionary movement for social emancipation in which developments normally taking centuries would flit by like phantoms in decades or even years But the force for such necessary vital change remains with the people themselves and rests on humanity s willingness to constitute itself as both subject and object of history through the collective struggle to create a just and sustainable world This M sz ros insists constitutes the unprecedented challenge and burden of our historical time
