Since the publication of the successful award-winning first edition of this book, some 1,200 research and clinical articles on hypnotism have been published in American journals alone, and a multitude of related books have been written. With so many important contributions in this field occurring in such a short time, there is great need for a resource that reflects the current thinking and incorporates the latest techniques. The Practice of Hypnotism, Second Edition, is that resource, providing the most up-to-date information available on hypnotism and hypnotherapy. It provides valuable background information, ideas for future research, and a wealth of detailed practical instruction for the production of hypnotic phenomena and the treatment of a large variety of health-related problems. Like the first edition, this book aims to present hypnotism from a scientific perspective. It also includes the bases upon which the author and others in the field have made their judgments, enabling the reader to make independent determinations based on the most complete information. The Practice of Hypnotism has evolved from the

Ziff,1996 The Jewish mystical tradition regards the rituals and stories of the Holy Day cycle as symbolic representations of internal spiritual and psychological development helping us to translate the experience into the language of contemporary psychological theories Joel Ziff combines his rich knowledge of psychology with close readings of Jewish texts to present us with *Mirrors in Time* a clinically illustrated practical guide that integrates the wisdom of the Jewish mystical tradition with contemporary psychological perspectives The Holy Days provide a context similar to that experienced in psychotherapy They

create time to reflect upon the challenges we face and consider how we might best respond. The texts of Jewish tradition describe a process through rituals, images, stories, and symbols. These can be difficult to understand because they are ancient, agrarian, hierarchical, and patriarchal in nature. Contemporary psychological perspectives can often articulate obscure mystical concepts. In his effort to translate the ideas of such mystical thinkers as Shneur Zalman of Lyady into a modern 20th century framework, Ziff includes theories developed by Freud, Jung, Assagioli, Perls, Erickson, and their students. The unique character of each Holy Day is experienced in the context of one's journey through the year, a journey that includes births and deaths, beginnings and endings, opportunities and crises, successes and failures. Daily we recreate and reinvent ourselves, giving birth to a new identity.
