Dessinger, 2007-03-22 *Training Older Workers and Learners* is a groundbreaking resource that focuses exclusively on age 40 plus workers This much needed resource offers trainers expert guidance and practical tools designed to deliver effective training and re training to older worker learners OWLS Based on sound theory and best practices the book shows how to maximize the workplace learning and performance potential of late life learners      **The Oxford Handbook of Education and Training in Professional Psychology** W. Brad Johnson Ph.D., Nadine Kaslow Ph.D., 2014-02-27 *The Oxford Handbook of Education and Training in Professional Psychology* provides the first comprehensive treatment of the processes and current state of the art practices bearing on educating and training professional psychologists Thousands of psychologists are employed full time as faculty members or clinical supervisors in graduate practicum internship and postdoctoral training programs or training sites This handbook provides a single resource that pulls together the substantial scholarship on education and training in psychology covering the full spectrum of historic developments salient issues current standards and emerging trends in psychology education and training It provides a thorough analysis of doctoral and postdoctoral training for psychologists in clinical counseling or school psychology specialties Because competency issues are moving to the forefront in the design of training programs and the evaluation of trainee performance the handbook s authors have made models and standards for competency a primary theme This volume captures the current state of education and training while emphasizing emerging trends and forecasting future directions

*Bullying: perspectives, practice and insights* Janice Richardson, Elizabeth Milovidov, Roger Blamire, 2017-04-01 *Bullying* is one of the most difficult areas of violence against children to eliminate especially with the ubiquitous role that internet and mobile technology plays in their life today and the capacity this gives for bullying to continue night and day Bullying seems to be part of human nature and has been with us since ancient times but that is no reason to accept it fatalistically as natural and for children part of growing up Only in the 1970s was research first undertaken to explore the phenomenon and to attempt to understand why it takes place and its impact on individuals and societies With the emergence of the internet and social media bullying has taken a more sinister turn becoming more relentless constant and inescapable for victims This book aims to explain to both experts and the interested layperson what is known about bullying its causes effects and crucially how it can be reduced in particular by fostering social and emotional skills in young people Authors from more than a dozen countries have contributed to this publication presenting widely differing perspectives practice and insights on how they are tackling or think we should be tackling modern societal issues such as bullying and hate speech While some chapters focus more specifically on case studies and what the research tells us others look at issues related to bringing up and educating children for the world we live in This publication also provides information on the work of the ENABLE network and aims to

introduce readers to the psychologists and researchers teachers parents and social media innovators that have helped to shape it Perceptions and Practices of Instructors' Training: A Case Study Shiba Bagale,2020-01-29 This research book is about the transfer of training The main theme of this research is how the training participants perceived training and how they are practicing in their real workplace The qualitative method was implied where class observations and in depth interviews were conducted to explore the perceptions and practices of the training participants along with the coping strategies on the challenges they have faced The findings were that adequate time was not provided for the preparation though some planning was done The practice of the training in both the skills and knowledge was seen where practice of skill is more applied Some of the knowledge and skills were not practiced Assessment was done by using both the formative and summative evaluation tools Finally this study concluded that there is the need of supervisors and guidance in practicing the skills and knowledge in their workplace **Signposts teacher training module** Jon Harald Bondevik,Astrit Dautaj,Kevin O'Grady,Angelos Vallianatos,2020-09-07

An essential complement to the Signposts publication As educators we often find ourselves at a crossroads We question our education policies while trying to find the best way to meet the needs of a democratic society that is striving for peaceful coexistence in a diverse world We try to project a better future and give more power to education so that it can contribute to the process of building that future Signposts has come at the right time Starting from the need to deal with religious and non religious world views in intercultural education it is a model for addressing diversity and controversy helping policy makers curriculum developers and teacher trainers to respond effectively to the new situations and challenges with which the world confronts us every day Signposts is an important instrument for Education for Democratic Citizenship and Human Rights Education EDC HRE that helps to create the culture of democracy
