This delightful and instructive history of invention shows why National Public Radio dubbed Tenner the philosopher of everyday technology. Looking at how our inventions have impacted our world in ways we never intended or imagined, he shows that the things we create have a tendency to bounce back and change us. The reclining chair, originally designed for brief, healthful relaxation, has become the very symbol of obesity. The helmet, invented for military purposes, has made possible new sports like mountain biking and rollerblading. The typewriter, created to make business run more smoothly, has resulted in wide spread vision problems which in turn have made people more reliant on another invention, eyeglasses. As he sheds light on the many ways inventions surprise and renew us, Tenner considers where technology will take us in the future and what we can expect from the devices that we no longer seem able to live without.      *Physical Education*, 1924.      **The Trident**, 1957.      **The Sportswoman**, 1930.      **Southern Campus**, 1928.      **The Encyclopedia of the Sword** Nick Evangelista, 1995-05-23. From the gruff sword-toting swashbucklers of the Middle Ages to modern adventure epics like *The Princess Bride*, the aura surrounding the sword is one that is both romantic and pragmatic. Thoughts of this weapon bring to mind images of the Knights of the Round Table, Zorro, the Three Musketeers, the things daydreams are made of. Historically, the fate of the empires revolved around the sword; nations rose and fell based on the power of their swordsmen. For centuries it was the weapon of choice in settling

personal disputes Today the art of sword fighting has been incarnated as the dynamic chess like sport of fencing It has also played an important part in the history of theatre and film and it has been part of literature for as long as there have been books In its varied guises the sword has for centuries figured in the world s varied cultures myths and politics Yet there has never been a comprehensive volume on the subject of the sword until the publication of this encyclopedia For the first time in a single volume one can locate information on the history of sword types and styles around the world techniques of combat sword use techniques and styles of modern sport fencing names and descriptions of various fencing implements and weapon types swashbuckler films and the fencing masters who influenced the genre significant individuals who have taught sword use the sword at the Olympics the literature in which the rapier foil or broadsword has figured and much much more Essential reading for fencing and military history enthusiasts
