[PR Women with Influence](#) Juan Meng, Marlene S.

Neill, 2020-12-22 PR Women with Influence Breaking Through the Ethical and Leadership Challenges makes a unique and timely contribution by exploring how women in public relations navigate through attitudinal structural and social barriers in advancing their leadership roles. The book is thoroughly grounded in rich empirical evidence gained through two phases of a funded research project conducted in the field. Phase I involves 51 in depth interviews with current female leaders in public relations and Phase II captures women's perceptions on gender related barriers in leadership advancement by recruiting a national panel of female public relations professionals. Results presented in this book provide a compelling current picture of women and leadership in public relations. By emphasizing our discussion on key issues and barriers as related to women in PR and their leadership advancement the authors call for real actions and change to develop a constructive ecosystem within the organization to embrace leadership for women in PR. Given its sharp topic focus wealth of empirical data and the relevance of the topic to today's public relations profession this book is suitable for different audiences both nationally and globally. Such audiences include but are not limited to public relations scholars educators and professionals both leaders and emerging leaders men and women young professionals women of color and public relations majors. Women in PR History Anastasios

Theofilou, 2020-12-29 The history of PR has received limited attention over the years and especially the role of women in PR has been an untold story thus far. This book is the first attempt following research presented at the International History of Public Relations Conference to shed light on the significant role that female pioneers have played in the evolution of PR. This book explores the field in a way that will offer insight of the significance that women had in the evolution of PR with diverse chapters that provide rich perspectives on women's contributions to PR throughout the years and across the globe. It opens with an overview of women in public relations. Later chapters focus on the case of Turkey which seems to have a rich history of women in public relations then on specific cases from Oceania Australia Europe Spain Asia Malaysia and Thailand and America United States. The final chapter deals with the case of Inez Kaiser who was the first African American woman to open a US public relations agency. This book will add knowledge and understanding to the fields of PR history and historiography. Academics and researchers will find the volume appropriate for research and teaching. Practitioners will also find the book extremely relevant for training short courses and professional practice.
