Stimulus-response Coupling [Published Work]. Timothy James Rink,1987 **Stimulus Response Coupling** Vana Smith,John R. Dedman,1990-10-24 This volume examines the role of intracellular calcium in the transmission of external chemical physical and electrical stimuli to the interior of the cell and the role of calcium in the physiological and metabolic effects of such stimuli *Studies on Stimulus-response Coupling in Smooth Muscle* E. Smith,John Dedman,1990 This volume examines the role of intracellular calcium in the transmission of external chemical physical and electrical stimuli to the interior of the cell and the role of calcium in the physiological and metabolic effects of such stimuli **Stimulus-response Coupling in Platelets** Evelyn Mei Huang,1986 *Mechanisms of*

Stimulus-response Coupling in Platelets ,1985 **The Pharmacology of Functional, Biochemical, and Recombinant Receptor Systems** Terrence P. Kenakin,James A. Angus,2000 The technology of drug testing is rapidly advancing This book brings together world renowned experts in the fields of pharmacology and physiology united with the common theme of describing methods theoretical concepts and in vitro systems used to study drug receptor mechanisms and the action of drugs on receptors The first section deals with the physiology and pharmacology of integrated natural systems the second with the new theoretical ideas used to model receptor systems i e the nature of efficacy receptor activation and the third with the new in vitro systems available for the study of receptors and drugs The latest ideas regarding receptor theory are critically evaluated and presented to the reader [Stimulus - Response Coupling in Platelets](#) Israel Charo,1979

[Mechanisms of Stimulus—Response Coupling in Platelets](#) J. Westwick,M. F. Scully,D. E. MacIntyre,V. V. Kakkar,2013-03-09 Since its inception the research area of platelet pharmacology has always been a vigorous one and it is a characteristic that new approaches to the understanding of platelet function are rapidly and thoroughly investigated The intensity of this activity is attributable probably to an appreciation by research workers in the field that a satisfactory therapeutic control of platelet function has yet to be realized Also that if and when this problem of controlling platelet function is achieved the benefits to clinical medicine will be immense since platelets are known to be involved in a multiplicity of events coupled within the haemostatic mechanisms and inflammatory responses Aberrations in the behaviour of platelets is part of the aetiology of atherosclerosis myocardial and cerebral infarction and thrombosis At this point in time research in platelet function is in a particularly rapid state of flux The recent findings of research workers active in the field and also workers investigating mechanisms of stimulus response coupling in other cells have provided interesting insights into the generality of mechanisms involved in the function of responsive cells One may itemize these developments as the area of cell receptor ligand interaction induction of cellular response by protein phosphorylation and calcium flux The mechanism of these latter events occurs through the activity of phospholipase generating transient intermediates These

intermediates may act as ionophores or enzyme activators or may in the case of eicosanoids reinforce and make irreversible the cellular response **Biochemical Actions of Hormones V8** Gerald Litwack, 2012-12-02 *Biochemical Actions of Hormones Volume VIII* is an eight chapter text that covers the developments in the understanding of the biochemical aspects of hormonal action and regulation This volume examines first the messenger functions of calcium in hormonal systems The next chapters deal with the neuronal regulation of blood pressure the regulation of protein synthesis by phosphorylation and the hormonal control of hepatic gluconeogenesis These topics are followed by discussions on the effects of insulin in intracellular functions the mechanisms of steroidal hormones and the membrane recognition and effector sites in steroid hormone action A chapter focuses on the activation of steroid receptor complexes The final chapters survey the estradiol and progesterone receptors in the human endometrium This book will be of great value to biologists biochemists and researchers in the field of hormonal action **The Neutrophil: Cellular Biochemistry and Physiology** Maurice B. Hallett, 2018-01-18 A synthesis and collation of the recent material regarding the role of the neutrophil in basic pathological processes is presented in this volume The mechanisms of chemotaxis secretion phagocytosis intracellular killing oxygen radical production and arachidonate production are comprehensively reviewed Stimulus response coupling in the neutrophil with chapters on intracellular Ca²⁺ C Kinase phospholipid metabolism microfilaments and membrane electrophysiology are extensively discussed Each chapter provides a critical review by experts with over 1 000 cited references Invaluable to graduate students and medical and scientific researchers this book provides a unique up to date account of cellular biochemistry and physiology of the neutrophil *New Insights in the Cognitive Neuroscience of Attention* Tetsuo Kida, Hidehiko Okamoto, 2024-01-11 Submission closed Guidelines We are now entering the third decade of the 21st Century and especially in the last years the achievements made by scientists have been exceptional leading to significant advancements in the fast growing field of Cognitive Neuroscience Frontiers have organized a series of Research Topics to highlight the latest advancements in research across the field of Cognitive Neuroscience This editorial initiative of relevance led by Dr Kida Associate Editor of the Cognitive Neuroscience section together with Dr Okamoto Associate Editor of both the Brain Imaging and Sensory Neuroscience sections is focused on new insights novel developments current challenges latest discoveries recent advances and future perspectives in the field of the Cognitive Neuroscience of attention **A Pharmacology Primer** Terry P.
