The Famine Plot Tim Pat Coogan, 2012-11-27 During a Biblical seven years in the middle of the nineteenth century Ireland experienced the worst disaster a nation could suffer Fully a quarter of its citizens either perished from starvation or emigrated with so many dying en route that it was said you can walk dry shod to America on their bodies In this grand sweeping narrative Ireland's best known historian Tim Pat Coogan gives a fresh and comprehensive account of one of the darkest chapters in world history arguing that Britain was in large part responsible for the extent of the national tragedy and in fact engineered the food shortage in one of the earliest cases of ethnic cleansing So strong was anti Irish sentiment in the mainland that the English parliament referred to the famine as God's lesson Drawing on recently uncovered sources and with the sharp eye of a seasoned historian Coogan delivers fresh insights into the famine's causes recounts its unspeakable events and delves into the legacy of the famine mentality that followed immigrants across the Atlantic to the shores of the United States and had lasting effects on the population left behind This is a broad magisterial history of a tragedy that shook the nineteenth century and still impacts the worldwide Irish diaspora of nearly 80 million people today

The Famine Plot John Freivalds, 1980

Unhappy the Land Liam Kennedy, 2015-10-26 In *Unhappy the Land* Liam Kennedy poses fundamental questions about the social and political history of Ireland and challenges cherished notions of a uniquely painful past Images of tragedy and victimhood are deeply embedded in the national consciousness yet when the Irish experience is viewed in the larger European context a different perspective emerges The author's dissection of some pivotal episodes in Irish history serves to explode commonplace assumptions about oppression victimhood and a fate said to be comparable only to that of the Jews Was the catastrophe of the Great Famine really an Irish Holocaust Was the Ulster Covenant anything other than a battle cry for ethnic conflict Was the Proclamation of the Irish Republic a means of texting terror And who fears to speak of an Irish War of Independence shorn of its heroic pretensions Kennedy argues that the privileging of the gun the drum and the flag above social concerns and individual liberties gave rise to disastrous consequences for generations of Irish people Ireland might well be a land of heroes from C chulainn to Michael Collins but it is also worth pondering Bertolt Brecht's warning *Unhappy the land that is in need of heroes*

Blood in the City Richard D. E. Burton, 2018-10-18 The Terror of 1793-94 the Paris Commune of 1871 the Dreyfus Affair explosions of violence punctuated French history from the start of the Revolution until the Liberation at the close of World War II The distinguished scholar Richard D E Burton here offers a stunningly original account of these outbursts concluding that recourse to political violence was not occasional and abnormal but rather the usual pattern in French history Instead of adhering to conventional chronological lines *Blood in the City* is structured topologically around a number of major Parisian sites of memory including Place de la Concorde Sacr Coeur and the Eiffel Tower For thirty years Burton has visited and revisited Paris criss crossing the streets on foot and lived with great nineteenth and twentieth century literary depictions of the city Drawing on historical literary visual anthropological and

psychological sources he develops a wide ranging account of violence in modern French politics In so doing he provides powerful insights into political violence scapegoating the idea of sacrifice and the widespread French obsession with conspiracy Burton demonstrates that time and again the same basic scenario has been acted out on the streets of Paris one or more people would be singled out from the community and imprisoned exiled or more often subjected to violence by the crowd or the state In particular he explores how Catholicism in its extreme ultrareactionary form shaped the worldviews of Parisians and how the killing of a sacrificial victim came to be seen as a reenactment of the crucifixion of Christ

The History of Evil in the Eighteenth and Nineteenth Centuries Douglas Hedley,2018-06-14 The fourth volume of The History of Evil explores the key thinkers and themes relating to the question of evil in eighteenth and nineteenth centuries The very idea of evil is highly contentious in modern thought and this period was one in which the concept was intensely debated and criticized The persistence of the idea of evil is a testament to the abiding significance of theology in the period not least in Germany Comprising twenty two chapters by international scholars some of the topics explored include Berkeley on evil Voltaire and the Philosophes John Wesley on the origins of evil Immanuel Kant on evil autonomy and grace the deliverance of evil utopia and evil utilitarianism and evil evil in Schelling and Schopenhauer Friedrich Nietzsche and the genealogy of evil and evil and the nineteenth century idealists This volume also explores a number of other key thinkers and topics within the period This outstanding treatment of the history of evil at the crucial and determinative inception of its key concepts will appeal to those with particular interests in the ideas of evil and good

Massacre at the Champ de Mars David Andress,2013 The massacre exposed the widely differing ways in which post Revolutionary Parisians construed the word patriotism and why the great Revolutionary goal of political unanimity was so elusive On 17 July 1791 the revolutionary National Guard of Paris opened fire on a crowd of protesters citizens believing themselves patriots trying to save France from the reinstatement of a traitor king To the National Guard and their political superiors the protesters were the dregs of the people brigands paid by counter revolutionary aristocrats Politicians and journalists declared the National Guard the patriots and their action a heroic defence of the fledgling Constitution Under the Jacobin Republic of 1793 however this massacre was regarded as a high crime a moment of truth in which a corrupt elite exposed its treasonable designs This detailed study of the events of July 1791 and their antecedents seeks to understand how Parisians of different classes understood patriotism and how it was that their different answers drove them to confront each other on the Champ de Mars David Andress is Professor of Modern History at the School of Social Historical and Literary Studies University of Portsmouth

Globalization, Environmental Change, and Social History Peter Boomgaard,Marjolein 't Hart,2011-02-24 Throughout all ages the activities of mankind have weighed heavily upon the environment In turn changes in that environment have favoured the rise of certain social groups and limited the actions of others Despite this environmental history has remained a blind spot for most social and economic historians This is to be regretted as the various and unequal effects of environmental

change often explain the strengths and weaknesses of certain social groups irrespective of their being defined along the lines of class gender and ethnicity This volume brings together the expertise of social and environmental historians in an effort to assess the extent to which transnational agents changed socioecological space as a consequence of globalization since the Late Middle Ages **Court of Appeals of the State of New York** , *Current History* ,1919 **The Nation** ,1922
