**History of Kentucky** William Elsey Connelley, Ellis Merton Coulter, 1912 **The Archaeology of New Netherland** Craig Lukezic, John P. McCarthy, 2025-03-18 Uncovering the material culture of Dutch colonization in North America *The Archaeology of New Netherland* illuminates the influence of the Dutch empire in North America assembling evidence from seventeenth century settlements located in present day New York New Jersey Connecticut Pennsylvania and Delaware Archaeological data from this important early colony has often been overlooked because it lies underneath major urban and industrial regions and this collection makes a wealth of information widely available for the first time Contributors to this volume begin by discussing the global context of Dutch colonization and reviewing typical Dutch material culture of the time as seen in ceramics from Amsterdam households Next they focus on communities and activities at colonial sites such as forts trading stations drinking houses and farms The essays examine the agency and impact of Indigenous people and enslaved Africans particularly women in the society of New Netherland and they trace interactions between Dutch settlers and Europeans from other colonies including New Sweden The volume also features landmark studies of cooking pots marbles tobacco pipes and other artifacts The research in this volume offers an invitation to investigate New Netherland with the same sustained rigor that archaeologists and historians have shown for English colonialism The many topics outlined here will serve as starting points for further work on early Dutch expansion in America *Census Bulletin* United States.
