A Guide to Developing Open Access Through Your Digital

Repository Kylie Pappalardo, Anne Fitzgerald, 2007 The advent of the internet and digital technologies has enabled information to be accessed and disseminated far more easily than ever before Technological developments have swept away a whole range of restrictions that in earlier times impeded or prevented open access to knowledge such as geographical barriers time restrictions delays in distribution of physical materials and barriers that limited the range of sources accessible by any one individual Improved access to information benefits researchers by enabling them to study their field more broadly reducing the amount of duplicative research and assisting in the production of better informed and therefore better quality research For these reasons the open access movement aims to promote the dissemination of knowledge broadly and freely across the internet in a timely fashion

The Evolution of a "digital Economy" Dieter Ernst, 2001

Electronic Design Automation Frameworks F. J. Rammig, Ron Waxman, 1991 During the last decade the field of electronic design automation has changed from a small industry offering a random sampling of commercial and academic design automation tools to a significant industry comprising offerings ranging from individual tools to total design systems all based upon a set of emerging standards Workers in electronic design automation are active in the development of integrated design environments and therefore in the development of frameworks Frameworks for electronic design automation are rather similar to those for mechanical or software engineering however the class of tools may differ resulting in differing specific requirements for the services to be offered The present book documents the results of the 2nd Workshop on electronic design automation frameworks The question of standardization is of special interest within the book especially as related to VHDL EDIF PDES and CFI Also included are discussions of the role of specialized languages for specific environments and how the user community can help standards to evolve
