The Beautiful Contradictions:

The Beautiful Contradictions Nathaniel Tarn, 1970 The Embattled Lyric Nathaniel Tarn, 2007 This book has two main subjects which are interwoven the attitudes of selected poets including Neruda Rilke Breton Celan and Artaud to the primitive and the archaic studied from an anthropologist's viewpoint and a model of the processes whereby poetry is produced and received built on the author's successful careers as both poet and anthropologist The book includes detailed biographical information about how Tarn went from being a French to an English to an American poet It also reveals the effect of a double career and of these moves on a unique body of poetry and theoretical work An extremely substantial interview serving also as an introduction to and discussion of the essays demonstrates that there is nothing like this work to be found elsewhere After the Beautiful Robert B. Pippin, 2013-12-23 In his Berlin lectures on fine art Hegel argued that art involves a unique form of aesthetic intelligibility the expression of a distinct collective self understanding that develops through historical time Hegel's approach to art has been influential in a number of different contexts but in a twist of historical irony Hegel would die just before the most radical artistic revolution in history modernism In After the Beautiful Robert B Pippin looking at modernist paintings by artists such as douard Manet and Paul C zanne through Hegel's lens does what Hegel never had the chance to do While Hegel could never engage modernist painting he did have an understanding of modernity and in it art he famously asserted was a thing of the past no longer an important vehicle of self understanding and no longer an indispensable expression of human meaning Pippin offers a sophisticated exploration of Hegel's position and its implications He also shows that had Hegel known how the social institutions of his day would ultimately fail to achieve his own version of genuine equality a mutuality of recognition he would have had to explore a different new role for art in modernity After laying this groundwork Pippin goes on to illuminate the dimensions of Hegel's aesthetic approach in the path breaking works of Manet the grandfather of modernism drawing on art historians T J Clark and Michael Fried to do so He concludes with a look at C zanne the father of modernism this time as his works illuminate the relationship between Hegel and the philosopher who would challenge Hegel's account of both modernity and art Martin Heidegger Elegantly inter weaving philosophy and art history After the Beautiful is a stunning reassessment of the modernist project It gets at the core of the significance of modernism itself and what it means in general for art to have a history Ultimately it is a testament via Hegel to the distinctive philosophical achievements of modernist art in the unsettled tumultuous era we have inherited

Modernism Ástráður Eysteinnsson, Vivian Liska, 2007 The two volume work Modernism has been awarded the prestigious 2008 MSA Book Prize Modernism has constituted one of the most prominent fields of literary studies for decades While it was perhaps temporarily overshadowed by postmodernism recent years have seen a resurgence of interest in modernism on both sides of the Atlantic These volumes respond to a need for a collective and multifarious view of literary modernism in various genres locations and languages Asking and responding to a wealth of theoretical aesthetic and historical questions 65

scholars from several countries test the usefulness of the concept of modernism as they probe a variety of contexts from individual texts to national literatures from specific critical issues to broad cross cultural concerns While the chief emphasis of these volumes is on literary modernism literature is seen as entering into diverse cultural and social contexts These range from inter art conjunctions to philosophical environmental urban and political domains including issues of race and space gender and fashion popular culture and trauma science and exile all of which have an urgent bearing on the poetics of modernity
