Learning Ritual Magic John Michael Greer, Earl King, Jr., Clare Vaughn, 2004-10-01 *Learning Ritual Magic* is a training manual for anyone serious about improving their magic based on the western mystery traditions including tarot ritual magic Qabalah and astrology What you get out of magic can be measured precisely by what you are willing to put into it and time is the essential ingredient in successful magical training the authors write And just as no one expects to run a marathon or play a Bach violin concerto without sufficient training so practitioners of the magical arts shouldn t expect to work complex powerful magical rituals without a solid grounding in the techniques of Hermetic high magic By spending at least a half hour a day practicing the lessons found in *Learning Ritual Magic* the solitary apprentice attains the proper groundwork and experience for working ritual magic *Learning Ritual Magic* provides lessons on meditation and a set of exercises designed to develop basic skills in imagination will memory and self knowledge all of which are absolute fundamentals to magical attainment While the authors discuss the essentials of magical theory they focus on daily basic perspectives rather than launching into details of advanced practice Designed for the solitary practitioner *Learning Ritual Magic* concludes with a ceremony of self initiation

The Practice of Magical Evocation Franz Bardon, 2014-07-28 Throughout the ages and primarily during the past few centuries many lengthy dissertations have been published on the art of higher magic Unfortunately they are for the most part such bewildering and incomplete remnants that very little of it can be taken as a point of reference for practical studies and this only in small fragments The original initiative for magic was known only to a very few lodges and was reserved for a particularly chosen few while for the seekers of truth who searched diligently for any information this subject matter remained dark and mysterious Various religions during the Middle Ages were severely hostile towards any magical knowledge In our history the most prominent examples are the well known Inquisitions Later in modern times magic was regarded as mere superstition and any person who showed some inclination toward this knowledge let alone one seriously concerned himself with the study of magic was regarded as a fool and was ridiculed In the past mystical and other sects maligned magic to such a degree that the word magic has to this very day an extremely dubious reputation And any person who has had an appreciation or understanding for magical knowledge has been pilloried as a black magician In reality true magic was initially taught in the ancient schools of the prophets and then only in the highest circles However only a few select insiders had access to these institutions In those days only a few books occasionally disclosed scant bits of information about true magic These books were deliberately written in such a way that they would disclose little or nothing even to the

most astute reader and hence they would not give the seeker of truth a complete understanding of the subject of magic In accordance with the ancient Egyptian Mysteries the magic of the second Tarot card is represented by the High Priestess Franz Bardon the author of *The Practice of Magical Evocation* gladly continues to guide the serious diligent reader and student of magic along the proper path as long as this person is devoid of any fanatical religious beliefs and erroneous ideology Furthermore this person has to be prepared to penetrate further into the mysteries of the knowledge of magic or the Hermetic sciences As in Franz Bardon's first book *Initiation into Hermetics* Bardon endeavors to keep the language of this second volume in a style that is understandable to everyone The subject matter of the magic of evocation is among the least known and least investigated branches of the art and therefore Bardon makes certain that every person who reads this book will become completely familiar with this subject matter not only in theory but above all with the practice if he so chooses It is important however that the reader know that he will not achieve any results with the practice of magical evocation unless he has successfully completed Step VIII at the very least of Franz Bardon's first book *Initiation into Hermetics* which is a description of the first tarot card the Magician Should Franz Bardon be successful in assisting the reader who has successfully completed the entire practical part of his first book to achieve the same good results with this one then Bardon has achieved his objective Those readers who initially study the secret sciences only theoretically will find in this work a satisfactory broadening of their knowledge

Of course Magic is Magic wherever But Ceremonial Magic with or without a k ending is perceived as largely European in origin and practice The Golden Dawn Aurum Solis O T O were European and even AMORC B O T A G B G were mostly European inspired As valid as these esoteric orders were and are they are at best schools and the knowledge taught is now widely available What is key is not the knowledge but the self accomplishment that comes only through personal experience otherwise known as self initiation The essence of Magic is a simple formula based on the exercise of Will Imagination and Gnosis or Magical Trance It is a technology and must be mastered like any technology through understanding and practice Like playing the piano it takes discipline to continue practicing basic exercises until it all becomes second nature and can function as an art as well And what for Not to perform tricks or miracles Not to wear fancy robes and chant barbarous words Not to reach high degrees with grand titles in a secret order No it is to transform and transmute your own self and thus to become more than you were not merely to accelerate normal human evolution but to actually move beyond and be a co creator And to finally answer those questions Who am I Where did I come from Where am I going High Magic is an active program for self discovery and Self Realization This book by a famed contemporary German magician self instructs the student through a series of basic exercises and real magical practices that train the magician through a consistent program combined with examples and explanations Each step is thorough without extravagance the program is effective and entirely self directed as must be all real learning the book is encyclopedic in depth and inclusive even of chaos and cyber magic Tables and Charts simplify the learning process The system starts with immediate immersion in ritual practice starting with

the Kabbalistic Cross and Lesser Banishing Ritual of the Pentagram and moves through beginning to advanced levels of Practical Sigil Magic Ritual Magic Elemental Magic the Greater Ritual of the Pentagram Planetary Magic the Hexagram Ritual Mantra Meditation the Magical Gaze Magical Trance the Pan Ritual Money Magic Talisman Magic Moon Magic Chaos Magic and Cyber Magic In each case practice is used to instruct nothing is presented as theory only You will find everything analyzed explained and justified with refreshing and truly uncommon common sense The author fully dispels the myths and subterfuges of archaic magical orders and explores the role of the Unconscious Mind the issues of Religion and Mysticism the nature of High and Low Magic the function of Myth and the role of Drama in Ritual the Magical Nature of Reality and Magical Perception Dream Work in relation to Magical Training the Magical Imagination and training for Visualization Psychic Protection Invocation and Evocation the Calling and Movement of Energies Charging Paradigm Shifting what is really means to Keep Silent the power of Intention definition of Magical Goals the ritual use of Symbols and Gestures the power of Words the Magician s Universe the magical pronunciation of Hebrew Letters the Magician s Tools Mantric Sigils the IAO formula and much more High Magic is central to Western culture as are science technology the rule of law democracy and the entrepreneurial economy Its practice and application should be part of your daily life starting now
