The Navigator, 1965 **The Navigator's Letter** Jan Cress Dondi, 2026-02-10 The Navigator's Letter brings to light one of the best untold and dangerous stories of World War II chronicling a moving and heroic story of patriotic duty, familial bonds, brotherhood and love. One of the riskiest air raids of World War II occurred on August 1, 1943, over the oil fields at Ploesti, Romania, Nazi Germany's primary fuel source. The Allies believed that the destruction of Hitler's oil refineries would shorten the war. Using an untested strategy, it was worth the gamble, but the mission did not go according to plan. With 53 aircraft and 532 crewmen lost, it was the costliest US air raid of the war. A true story, The Navigator's Letter is a tale of uncanny coincidences: two friends from the same small Illinois town both joined the Air Corps, both became navigators, both were assigned to B-24 Liberators, both flew missions over Europe, both of their planes were forced down over Ploesti, and both went missing in action. Intertwined with events of WWII, the story follows the two B-24 navigators coursing through wartime, both with ties to the same woman. Their lives unfurl with the Air Force's darkest day, Operation Tidal Wave. It was the first ever zero-altitude air raid, which led to Operation Reunion, the largest evacuation by air in history, repatriating 1,162 POWs from Romania back to American air bases in Italy.

Cockpit Commander: A Navigator's Life Bruce Gibson, 2013-06-19 Previously self-published by the author, this book charts the course of a dramatic career as a Wing Commander, living through one of the most dynamic periods in military and aviation development history. Bruce Gibson saw events play out from his elevated aerial position. His fascinating story will appeal to a wide audience, focussing as it does not only upon aviation concerns. From life as a mischievous child living in the East End of London to realising his true direction and joining the RAF Air Volunteer Reserves in 1937, and then the Royal Air Force and beyond into aviation ventures in a civilian capacity, his amusing observations and anecdotes provide the most colourful insight into life during the monochromatic blackout years of World War II and beyond. Many historical records and operational logs are available on the market to those looking for cold facts and statistical analyses of events; this account features the human tales, the anecdotes, and the spirit of camaraderie which characterised Gibson's experiences.

The Weekend Fix Craig Weldon, 2021-04-08 Craig Weldon came of age on hills all around the British Isles, especially the Munros in Scotland. With his friends, he braved the high peaks and ridges of the Cuillin and the lower tops of Gloucestershire, Welsh farmers, and even wilder Highland mires. Sometimes hilarious, occasionally dangerous, more often wet, one thing was for certain: tackling the hills was never boring.

How To Read a Nautical Chart: A Captain's Quick Guide Nigel Calder, 2008-07-15 Your quick reference on-board guide to the symbology and shorthand notations used on nautical charts. Nautical charts contain an incredible amount of information for those who know how to decipher them. But without a key to the symbology, a chart can be bewildering. Nigel Calder, one of today's most respected boating authors, helps you make sense
