[Managing Your School Library and Information Service](#) Anthony Tilke, 2002 Focusing on the library as an intrinsic part of the secondary or high school, this practical handbook provides the school librarian with the skills, knowledge, and competencies that are needed to make a school library effective in the 21st century. The school's organization and current learning and curriculum matters are seen as equally important to the technical aspects of a school librarian's role. Linking all of these issues is management, either for a single person, unit, or an organization with a large number of staff. *The Whole School Library Learning Commons* Judith Anne Sykes, 2016-08-29 Introduce your teachers, librarians, and administrators to the roles and responsibilities of educators in advocating a whole school library learning commons using this step by step guide for creating shared learning space in your school. It is no surprise that technology has shifted the way we educate, bearing on how, what, and where we learn. This guide lays the framework for helping turn your school library into a whole school library learning commons, WSLLC, a space where traditional academics merge with the latest technologies to engage learners in a way never before realized.
