Perspectives on Radio and Television F. Leslie Smith, 1979      **Reading a Dynamic Canvas** Cynthia S. Colburn, Maura K. Heyn, 2021-02-03 Personal adornment as an extension of the body is a crucial component in social interaction The active process of adorning the body can shape embodied identities such as social status ethnicity gender and age As a result of its dynamic and performative nature the body can often convey meaning more powerfully and convincingly than verbal communication Yet adornment is not easily read and does not necessarily reflect actual lived experience Rather bodily adornment and the performances that accompany it can be manipulated to conceal or exaggerate reality thus speaking more to identity discourse The interpretation of such discourse must be grounded in an understanding of the context specific and negotiable nature of adornment The essays in this volume which are united by their focus on material and visual evidence cover a broad chronological and geographical span from the ancient Near East to Roman Britain and bring together innovative scholarly work on adornment by an international group of art historians and archaeologists This attention to the archaeological evidence makes the volume a valuable resource as those working with material or visual culture face unique methodological and theoretical challenges to the study of adornment      **A Legal History of Scotland: The sixteenth**

**American Women** Elizabeth Anticaglia, 1975 *High-Stakes Leadership* Constance Dierickx, 2017-09-22 What makes some leaders so effective when the stakes are high while others fall short Why are some able to not only survive but to lead their organizations to new heights even in risky fast changing times The answer is succinct but multi layered such leaders display courage judgment and fortitude High stakes leadership does not require unnatural powers nor is it predicated on a dangerous situation The three signature character traits can be cultivated by anyone at any level in any organization big or small Organizational and leadership consultant Constance Dierickx describes high stakes leadership in a simple three part model that illuminates the mindsets strategies and tactics leaders must draw upon to make tough decisions take an unpopular stand or ignore convention providing real world examples across a range of sectors and industries Dierickx developed her model of high stakes leadership to help her clients executives at organizations ranging from start ups to nonprofits to large global companies better define what they need to bring strategy to life This she found is the great gulf in business the vast space between idea and results High Stakes Leadership helps leaders sharpen their ability to act decisively with clarity and focus test ideas using reason and course correct as needed be resolute and inspire others to continue even in the face of challenges Leading requires the courage to make conscious decisions about what to do the judgment to separate

information from short term trends and the fortitude to remain true to oneself and one's mission. When leaders do these things they also become teachers leading their teams by example often without realizing it. The essential aspects of good leadership endure even as the environment and tactics change. Indeed, courage, judgment, and fortitude are not merely tools for survival; they are the means by which we sculpt the future. **The Trouser Press Record Guide** Ira A. Robbins, 1991

**New Orleans and Urban Louisiana** Samuel Claude Shepherd, 2005 *The Devil's Milk* John Andrew Tully, 2011

Capital as Marx once wrote comes into the world dripping from head to foot from every pore with blood and dirt. He might well have been describing the long, grim history of rubber. From the early stages of primitive accumulation to the heights of the industrial revolution and beyond, rubber is one of a handful of commodities that has played a crucial role in shaping the modern world, and yet as John Tully shows in this remarkable book, laboring people around the globe have every reason to regard it as the devil's milk. All the advancements made possible by rubber industrial machinery, telegraph technology, medical equipment, countless consumer goods, have occurred against a backdrop of seemingly endless exploitation, conquest, slavery, and war. But Tully is quick to remind us that the vast terrain of rubber production has always been a site of struggle, and that the oppressed who toil closest to the devil's milk in all its forms have never accepted their immiseration without a fight. This book, the product of exhaustive scholarship carried out in many countries and several continents, is destined to become a classic. Tully tells the story of humanity's long encounter with rubber in a kaleidoscopic narrative that regards little as outside its range without losing sight of the commodity in question. With the skill of a master historian and the elegance of a novelist, he presents what amounts to a history of the modern world told through the multiple lives of rubber. **Louisiana History**, 1999 *The Louisiana Purchase Bicentennial Series in Louisiana History* University of Southwestern Louisiana. Center for Louisiana Studies, 2005 **The Moral Compass of the American Lawyer** Richard A. Zitrin, Carol Mae Langford, 1999

These are perilous times for America's lawyers and for Americans who rely on lawyers. Blatant abuses of power and trust, reckless ethical misconduct, grossly unjust billing practices, and dishonesty disguised as client confidentiality have all undermined the credibility of lawyers and imperiled the authority of the legal system. In the court of public opinion, many lawyers these days are more culpable than the criminals they defend and prosecute. Is the public right? In this eye-opening, incisive book, Richard Zitrin and Carol Langford, two practicing lawyers and distinguished law professors, shine a penetrating light on one of the most critical issues now confronting our judicial system: legal ethics. Pick up any newspaper and you will no doubt see a heated debate between lawyers who view certain legal behavior as ethical and average citizens who judge that same conduct in terms of morality. Through in-depth analysis and case studies of actual trials ranging from murder to class action suits, Zitrin and Langford go behind the headlines to investigate why lawyers behave the way they do and what impact that behavior has on our legal system. The result is a stunningly lucid exploration of law as it is practiced in America today and a cogent, detailed, ground-breaking program for legal reform. Zitrin and Langford begin with a frank and

fascinating discussion of a harrowing criminal case to illustrate why a defense lawyer's zealous advocacy is necessary not just to protect reprehensible clients but to ensure many of the freedoms we all enjoy. But problems arise when that same unfettered zeal is applied to the civil arena where the power and money of large corporations can jeopardize the ordinary citizen's access to justice. Zitrin and Langford then probe the other major legal issues of our day including how large multinational law firms use prolonged expensive discovery wars to win the majority of cases before they ever come to trial or to the public's attention how lawyers have turned trials into legal theater in which race, sex, and spin replace evidence, facts, and truth and how lawyers have managed to turn class action suits into massive money makers for themselves. But it doesn't have to be this way. In the book's powerful final chapter Zitrin and Langford outline a concrete workable program for changing the way law is practiced while retaining the vision and intent of the Founding Fathers. Timely, provocative, and absolutely mesmerizing, *The Moral Compass of the American Lawyer* is essential reading for anyone who cares about truth and justice in our society. *A ruler of Ind., by F.T.
