The Potential of Nature Evan Mati,2023-08-22 Curiosity about oneself and ones surroundings has led humans to research nature through science You can see life on all levels from the microcosm to the macrocosm Science constantly reveals the interconnectedness of all life in the universe When you see yourself as part of the whole it makes it possible to live a full life Global awareness allows beings to experience the unity of all life in nature We are not isolated islands The emerging global awareness results in humans beginning to make choices that promote biodiversity If there is an ego within humans see that it only hinders them from successfully living on this planet The only way to evolve is consciously This awareness of oneself and one s surroundings brings with it an insight into a very large inherent potential It is possible to solve it both individually or globally Climate neutral businesses are starting to appear here and there in the world The recycling circuit of materials turns out to be a solution to most of the environmental degradation Life sustains itself The question is Should humans be included Nature s way is not always the way humans intend it to be With intelligence humans can solve the environmental issue
