# Stage In Action

**Richard Sagor**

## **Stage In Action:**

Greek Tragedy in Action Oliver Taplin, 2003-10-04 Oliver Taplin's seminal study was revolutionary in drawing out the significance of stage action in Greek tragedy at a time when plays were often read purely as texts rather than understood as performances. Professor Taplin explores nine plays including Aeschylus' Agamemnon and Sophocles' Oedipus the King. The details of theatrical techniques and stage directions used by playwrights to highlight key moments are drawn out and related to the meaning of each play as a whole. With extensive translated quotations, the essential unity of action and speech in Greek tragedy is demonstrated. Now firmly established as a classic text, *Greek Tragedy in Action* is even more relevant today when performances of Greek tragedies and plays inspired by them have had such an extraordinary revival around the world.

*The Action Research Guidebook* Richard Sagor, 2005 This book is organized around Richard Sagor's four-stage process developed from his many years of experience training hundreds of educators. The four stages are clarifying visions, targets, articulating theory, implementing action, and collecting data, reflecting on data, and planning informed action. The book includes numerous tables, charts, handouts, forms, and worksheets to demystify and simplify the action research process. Short examples drawn from the author's experience working one-on-one with teachers on their action research projects are also included, from raising reading proficiency to increasing the problem-solving capacity of faculty members. The author shows how teacher teams can work collaboratively to identify and research problems related to the school's goals. Appropriate for use by individual teachers and teacher teams as well as by pre-service teachers in teacher education courses, headteachers, counsellors, and other educators will also find the action research process useful for school improvement.
