goes on to discuss how policy is translated into practice within the library context and whether the wide range of reading groups linked to libraries suggests that libraries understand and are taking the social inclusion agenda seriously She also explores how effectively libraries are using reading groups as a tool for delivering on the agenda for learning and how this sits within wider priorities for post compulsory education and lifelong learning Finally the book suggests ideas for future development for these groups outlining ways in which their potential could be maximised for the benefit of both the library and the reading group members The book will be of great interest to professional librarians as well as students and scholars of librarianship It will also be of interest to those working on the emerging field of reading groups in literary studies Those interested in the role of reading in education as well as disability scholars will also find the book useful [Macworld](#) ,1995
