Thinking About Social Problems:

Thinking about Social Problems Richard L. Henshel, Robert King Merton, 1990 **Thinking About Social Problems** Donileen Loseke, 2017-07-05 The new second edition of this distinctive and widely adopted textbook brings into the classroom an overview of how images of social problems can shape not only public policy and social services but also the ways in which we make sense of ourselves and others It introduces two primary changes First some attention is devoted to the new social movements that emphasize social change through identity transformation rather than through structural change Second the text now also looks more closely at the importance of emotions in constructing public consciousness of social problems When the first edition was published Teaching Sociology noted Loseke does a superb job explaining the relationship between sociology and social problems in a text that is very well research and engaging yet with tremendous attention to detail and accuracy Would provide a solid base for any social problems class Contemporary Sociology wrote that the book is engagingly well written in a personal unpretentious style and well informed by the author s knowledge of the professional literature

Thinking about Social Problems Donileen R. Loseke, 2003-01 An overview of how images of social problems can shape not only public policy and social services but also the ways in which we make sense of ourselves and others It introduces two primary changes First some attention is devoted to the new social movements that emphasize social change through identity transformation rather than through structural change Second the text now also looks more closely at the importance of emotions in constructing public consciousness of social problems How to Think about Social Problems William M. Hastings, 1979 Introduction to the study of social problems **Social Problems** Donileen R. Loseke, Joel Best, 2017 This collection of focused essays is directed at several levels of students of social problems It is accessible to the uninitiated who are not familiar with the constructionist literature and aimed at those who are not particularly interested in subtle theoretical and empirical issues of concern to academics studying social problems from constructionist perspectives Some readings focus on the construction of problems by scientists and other professionals others examine the work of social activists mass media and social service personnel Among the topics included are studies of social inequalities and individual deviance a comparison of the images of social problems in the United States with those in other countries and an examination of the importance of politics and power in constructing public images of social problems Constructionist perspectives have become the leading theoretical approach for sociology and allied fields in studying social problems Yet constructionists impact on the teaching of social problems has been far less dramatic Undergraduate courses on social problems are often subject to a theoretical barrage of eclectic perspectives Just as the first social problems textbooks did almost a century ago textbooks continue to present a series of unrelated chapters each devoted to a particular social problem Social Problems is an effort at systematic analysis rather than random thought on the subject Social Problems presents detailed case studies demonstrating how constructionist perspectives can actually be applied to understand particular social problems While these articles can be

read alone the editors have organized these selections to correspond with the chapter topics in the second edition of Donileen Loseke's *Thinking about Social Problems* an accessible introduction to constructionist approaches At the same time some instructors who use this edited collection might wish to provide their own mix to the selection process Many of the contributions make multiple points and so reasonably could be used to illustrate other basic texts or classic studies in the field of social problems Donileen R Loseke is professor of sociology at the University of South Florida Joel Best is professor and chair Department of Sociology and Criminal Justice University of Delaware He has also served as an advisory editor for Aldine in the area of social problems *Think Social Problems* John D. Social Problems Paul J. Baker, Louis E. Anderson, Dean S. Dorn, 1993 Instead of just describing social problems this book helps students develop active critical thinking skills through evaluating and analyzing readings from social scientists and journalists on major social problems The authors goal is to teach students to be lifelong critical consumers of journalistic and social scientific accounts of all kinds of social problems Thinking about Social Problems Donileen R. Loseke, 1999

Brief History of Social Problems Frank J. McVeigh, Loreen Therese Wolfer, 2004 In this book Frank McVeigh and Loreen Wolfer take an historical approach to examine the causes and conflicts behind ten major social problems that have existed for nearly 230 years Using a critical thinking perspective of the history sociology politics and economics of the period the authors analyze social problems as a series of conflicts between those with power and those who were at one time virtually powerless Embedded in this analysis is a discussion of how the shift from a Gemeinschaft to Gesellschaft society has influenced how we address these problems Using these themes McVeigh and Wolfer provide thought provoking insight into the ways individuals groups and social institutions change over time gaining or losing power The book contains a preface by Arthur Shostak Drexel University *The Survey*, 1916 **Seeing Social Problems** Ira Silver, 2019-12-03 Seeing Social Problems The Hidden Stories Behind Contemporary Issues shows students how to think about social problems in a new way by carefully analyzing headline making issues they are already familiar with and illustrating the connection between individual problems and larger social forces Each chapter engages students in thinking about the world sociologically by focusing on a specific case study that represents a more general social problem The chapters always start with the knowledge beliefs attitudes and personal experiences that students bring to the case what author Ira Silver refers to as the conventional wisdom and effectively demonstrate to them the first wisdom of sociology things are not what they seem In each instance Silver shows how sociologists ask questions gather empirical data use multiple perspectives and consider larger social forces to discover the hidden stories behind individual behavior *The High School*, 1928 The Church and Social Problems A.
