Crime Paul Iganski, Jack Levin, 2015 This short accessible text takes on the global and pervasive phenomenon of hate crimes and hypothesizes potential fixes Iganski and Levin detail evidence of hate violence in the 21st century particularly religious hatred ethnic racial and xenophobic hatred violence on the basis of sexual orientation and sexual identity disability violence and violence against women using the most recently published data from cross national surveys produced by international organizations This is an ideal addition to any course on social problems violence or hate crimes *The Violence of Hate* Jack Levin, Jim Nolan, 2011 This text explores two forms of hate and prejudice racism in contemporary American society and the historical occurrence of anti-Semitism under a single conceptual framework Jack Levin is a well known scholar author and lecturer on the subject of hate crimes In this book he shows how support for both racism and anti-Semitism can be conceptualized as occurring among four groups hatemongers dabblers sympathizers and spectators Levin argues that hate and prejudice continue at a very dangerous level in our society and that hate typically emanates not from the ranting and raving of a few people at the margins of society but from ordinary people in the mainstream Jim Nolan new to this edition is an Associate Professor at West Virginia University and a former FBI agent specializing in hate crimes and prejudice *Hate Crimes Revisited* Jack Levin, Jack McDevitt, 2009-03-25 Hate crimes violence aimed at individuals because they are members of a particular group were once considered the rare illegal actions of a small but vocal assortment of extremists who thrived on hating minorities No more In this new book by two of the country's leading experts on hate crimes published ten years after their classic book of the same name these most recognized authorities and media commentators reinterpret this scourge of our generation hatred based on race religion sexual orientation ethnicity gender and even citizenship In the aftermath of the worst act of terrorism in this country's history the bombing of the World Trade Center on September 11 2001 the authors probe the causes and characteristics of such acts of hatred and most vitally their consequences for all of us *In the Name of Hate* Barbara Perry, 2002-05-03 In *The Name of Hate* is the first book to offer a comprehensive theory of hate crimes arguing for an expansion of the legal definitions that most states in the U S hold Barbara Perry provides an historical understanding of hate crimes and provocatively argues that hate crimes are not an aberration of current society but rather a by product of a society still grappling with inequality difference fear and hate **Hate Crimes** Valerie Jenness, 2018-12-13 Violence directed at victimized groups because of their real or imagined characteristics is as old as humankind Why then have hate crimes only recently become recognized as a serious social problem especially in the United States This book addresses a timely set of questions about the politics and dynamics of intergroup violence manifested *Sexual Orientation and Gender Expression in Social Work Practice* Deana F. Morrow, Lori Messinger, 2006-04-02 Al Jazeera and other satellite television stations have transformed Arab politics over the last decade By shattering state control over information and giving a platform to long stifled voices these new Arab media have challenged the status quo by encouraging open debate about Iraq Palestine Islamism Arab identity and other vital political and social issues These public

arguments have redefined what it means to be Arab and reshaped the realm of political possibility As Marc Lynch shows the days of monolithic Arab opinion are over How Arab governments and the United States engage this newly confident and influential public sphere will profoundly shape the future of the Arab world Marc Lynch draws on interviews conducted in the Middle East and analyses of Arab satellite television programs op ed pages and public opinion polls to examine the nature evolution and influence of the new Arab public sphere Lynch who pays close attention to what is actually being said and talked about in the Arab world takes the contentious issue of Iraq which has divided Arabs like no other issue to show how the media revolutionized the formation and expression of public opinion He presents detailed discussions of Arab arguments about sanctions and the 2003 British and American invasion and occupation of Iraq While Arabs strongly disagreed about Saddam s regime they increasingly saw the effects of sanctions as a potent symbol of the suffering of all Arabs Anger and despair over these sanctions shaped Arab views of America their governments and themselves Lynch also suggests how the United States can develop and improve its engagement with the Arab public sphere He argues that the United States should move beyond treating the Arab public sphere as either an enemy to be defeated or an object to be manipulated via public relations Instead of wasting vast sums of money on a satellite television station nobody watches the United States should enter the public sphere as it really exists

**Violence Against Women as Bias Motivated Hate Crime**, 2001 *Hate Crimes* Valerie Jenness, Kendal Broad, 1997 In addressing a timely set of questions about the politics and dynamics of inter group violence manifest as discrimination this volume explores such issues as why injuries against some groups of people Jews people of color gays and lesbians and sometimes women and those with disabilities capture notice while similar acts of bias motivated violence against others continue to go unnoticed Throughout the authors develop a compelling argument about the social processes through which new social problems emerge social policy is developed and diffused and new cultural forms are institutionalized

Extreme Speech and Democracy Ivan Hare, James Weinstein, 2009 This book considers the constitutionality of hate speech regulation and examines how liberal democracies have adopted fundamental differences in the way they respond to racist or extreme expressions

Levin Jack A. Levin, Jim Nolan, 2013-07-01 *Making Hate A Crime* Valerie Jenness, Ryken Grattet, 2001-08-15 Violence motivated by racism anti Semitism misogyny and homophobia weaves a tragic pattern throughout American history Fueled by recent high profile cases hate crimes have achieved an unprecedented visibility Only in the past twenty years however has this kind of violence itself as old as humankind been specifically categorized and labeled as hate crime Making Hate a Crime is the first book to trace the emergence and development of hate crime as a concept illustrating how it has become institutionalized as a social fact and analyzing its policy implications In Making Hate a Crime Valerie Jenness and Ryken Grattet show how the concept of hate crime emerged and evolved over time as it traversed the arenas of American politics legislatures courts and law enforcement In the process violence against people of color immigrants Jews gays and lesbians women and persons with disabilities has come to be

understood as hate crime while violence against other vulnerable victims octogenarians union members the elderly and police officers for example has not The authors reveal the crucial role social movements played in the early formulation of hate crime policy as well as the way state and federal politicians defined the content of hate crime statutes how judges determined the constitutional validity of those statutes and how law enforcement has begun to distinguish between hate crime and other crime Hate crime took on different meanings as it moved from social movement concept to law enforcement practice As a result it not only acquired a deeper jurisprudential foundation but its scope of application has been restricted in some ways and broadened in others Making Hate a Crime reveals how our current understanding of hate crime is a mix of political and legal interpretations at work in the American policymaking process Jenness and Grattet provide an insightful examination of the birth of a new category in criminal justice hate crime Their findings have implications for emerging social problems such as school violence television induced violence elder abuse as well as older ones like drunk driving stalking and sexual harassment Making Hate a Crime presents a fresh perspective on how social problems and the policies devised in response develop over time A Volume in the American Sociological Association's Rose Series in Sociology

*Considering Hate* Kay Whitlock, Michael Bronski, 2015-01-06 A provocative book about rethinking hatred and violence in America. Over the centuries American society has been plagued by brutality fueled by disregard for the humanity of others systemic violence against Native peoples black people and immigrants. More recent examples include the Steubenville rape case and the murders of Matthew Shepard Jennifer Daugherty Marcelo Lucero and Trayvon Martin. Most Americans see such acts as driven by hate. But is this right? Longtime activists and political theorists Kay Whitlock and Michael Bronski boldly assert that American society's reliance on the framework of hate to explain these acts is wrongheaded misleading and ultimately harmful. All too often Americans choose to believe that terrible cruelty is aberrant caused primarily by extremists and misfits. The inevitable remedy of intensified government based policing increased surveillance and harsher punishments has never worked and does not work now. Stand your ground laws the US prison system police harassment of people of color women and LGBT people and the so called war on terror demonstrate that the remedies themselves are forms of institutionalized violence. *Considering Hate* challenges easy assumptions and failed solutions arguing that hate violence reflects existing cultural norms. Drawing upon social science philosophy theology film and literature the authors examine how hate and common even ordinary forms of individual and group violence are excused and normalized in popular culture and political discussion. This massive denial of brutal reality profoundly warps society's ideas about goodness and justice. Whitlock and Bronski invite readers to radically reimagine the meaning and structures of justice within a new framework of community wholeness collective responsibility and civic goodness.
