Syntax Phonology Interface In Focus And Topic Constructions In Italian:

The Syntax-Phonology Interface in Focus and Topic Constructions in Italian M. Frascarelli, 2013-03-09 this work represents a key case study in the study of the prosody and syntax interactions Pilar Prieto *Lingua* 115 2005 The Syntax-Prosody Interface Giuliano Bocci, 2013-08-13 This book presents an experimental and theoretical investigation of the interplay between information structure word order alternations and prosody in Italian Left right dislocations focus fronting and other reordering phenomena are analyzed taking into account their morphosyntactic and prosodic properties It is argued that a restricted set of discourse related properties are inserted in the numeration as formal features These discourse related features drive the syntactic derivation and the formation of the prosodic representation in compliance with the T model of grammar Based on the cartographic approach this study proposes a model of the syntax prosody interface in which the phonological computation of prosody is fed by syntactically encoded properties of information structure However this computation is also governed by structural requirements intrinsic to the phonological domain and thus a bijective relation between information structure and prosodic representation is not guaranteed The monograph will be of interest to any linguist concerned with syntax information structure and prosody The Interaction of Focus, Givenness, and Prosody Vieri Samek-Lodovici, 2015 This is an open access title available under the terms of a CC BY NC ND 4.0 International licence It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations This book provides an in depth investigation of contrastive focalization in Italian showing that its syntactic expression systematically interacts with the syntactic expression of discourse given phrases Vieri Samek Lodovici disentangles the properties genuinely associated with contrastive focalization from those determined by highly productive operations affecting discourse given phrases in Italian namely right dislocation and marginalization Based on a vast aggregate of evidence he shows that in the default case contrastive focalization occurs in situ and that left peripheral focalization patterns arise from the interaction with right dislocation and generalize well beyond the familiar cases examined in Rizzi 1997 and most literature since In the final chapter the author examines how the key properties unveiled in the previous sections such as focalization in situ follow from the prosodic constraints governing stress placement thus reinterpreting and extending Zubizarreta's 1998 insight about the role of prosody in shaping syntax Overall the book offers an evidence backed radical departure from current views of focalization proposing a high fixed focus projection at the left periphery of the clause It also provides the most comprehensive study of Italian marginalization and right dislocation available to date *Beyond Functional Sequence* Uri Shlonsky, 2015 The 16 articles in this collection will advance both empirical and theoretical work in cartography **Focus and Background in Romance Languages** Andreas Dufter, Daniel Jacob, 2009-06-18 Focus background structure has taken center stage in much current theorizing about sentence prosody syntax and semantics However both the inventory of focus expressions found cross linguistically and the interpretive consequences associated with

each of these continue to be insufficiently described This volume aims at providing new observations on the availability and the use of focus markings in Romance languages In doing so it documents the plurality of research on focus in Spanish Portuguese French Italian and Romanian Topics covered include constituent fronting and clefting the position of subjects and focus particles clitic doubling of objects and information packaging in complex sentences In addition some contributions explore focus background structure from acquisitional and diachronic angles while others adopt a comparative perspective studying differences between individual Romance and Germanic languages Therefore this volume is of interest to a broad audience within linguistics including syntacticians semanticists and historical linguists *Rivista di grammatica generativa*, 2009

Information Structure and Its Interfaces Lunella Mereu, 2009 This series consists of collected volumes and monographs about specific issues dealing with interfaces among the subcomponents of linguistic structure phonology morphology phonology syntax syntax semantics syntax morphology and syntax lexicon Recent linguistic research has recognized that the subcomponents of grammar interact in non trivial ways What is currently under debate is the actual range of such interactions and their most appropriate representation in grammar and this is precisely the focus of this series Specifically it provides a general overview of various topics by examining them through the interaction of grammatical components The books function as a state of the art report of research

Selected Proceedings of the 9th Hispanic Linguistics Symposium Nuria Sagarra, Almeida Jacqueline Toribio, 2006 This volume contains 30 papers selected from two conferences which were held jointly at the Pennsylvania State University in 2005 the 9th Hispanic Linguistics Symposium and the 8th Conference on the Acquisition of Spanish and Portuguese as First and Second Languages The papers are organized into sections on theoretical syntax phonetics and phonology second language acquisition and teaching acquisition of syntax and sociolinguistics

A Phase-based Approach to Russian Free Word Order Marina Dyakonova, 2009

Word Order and Information Structure in Makhuwa-Enahara Jenneke Van der Wal, 2009 This thesis investigates the grammar of Makhuwa Enahara a Bantu language spoken in the north of Mozambique The information structure is an influential factor in this language determining the word order and the use of special conjugations known as conjoint and disjoint verb forms The thesis consists of two parts The first part is a grammatical description of the language covering the basic properties in the phonology prosody and morphology of the nominal and verbal domain as well as an overview of the conjugational system The chapter also examines some syntactic issues such as relativisation and non verbal predication The second part is concerned with the question how syntax and information structure interact in Makhuwa Enahara The elements in a sentence are positioned before or after the verb on the basis of their information structure Elements in the preverbal domain are interpreted as more accessible functioning as topics The disjoint verb and elements in the postverbal domain form the comment The element immediately following the conjoint verb form is interpreted not just as new information but as exclusive meaning that the proposition

holds for that referent and not for some other referents These data can be accounted for if insights from syntax and information structure are combined Two such approaches are discussed a cartographic model and an interface model Two interface rules are proposed to account for the interpretation of word order and the conjoint and disjoint verb forms in Makhuwa Enahara **The Linguistic Review** ,2007 Wccfl 22 Gina Garding,Mimu Tsujimura,2003-12 This proceedings contains 39 papers from the WCCFL 22 conference which took place March 21 23 2003 at UC San Diego *Journal of Linguistics* ,2003 **Issues in the Phrasing of Barcelona Spanish** Rajiv Gururaja Rao,2007 The Journal of West African Languages ,2005 **Southwest Journal of Linguistics** ,2004 **Grammar and Information Structure** Natalia Slioussar,2007 *Probus* ,1999
