Systemic Racism in America
Rashawn Ray, Hoda Mahmoudi, 2022-03-30

Racist policies are identified as opportunity killers and the disparities created by them often have racism sustained through race-neutral policies. *Systemic Racism in America: Sociological Theory, Education, Inequality, and Social Change* situates our contemporary moment within a historical framework and works to identify forms, occurrences, and consequences of racism, as well as argue for concrete solutions to address it. This volume assembles renowned and thought-provoking social scientists to address the destructive impacts of structural racism and the recent incendiary incidents that have driven racial injustice and racial inequality to the fore of public discussion and debate. The book is organized into three parts to explore and explain the ways in which racism persists, permeates, and operates within our society. The first part presents theoretical perspectives to analyze the roots and manifestation of contemporary racism; the second concentrates on educational inequality and structural issues within our institutions of learning that have led to stark racial disparities; and the third and final section focuses on solutions to our current state and how people, regardless of their race, can advocate for racial equity.

Urgent and needed, *Systemic Racism in America* is valuable reading for students and scholars in the social sciences, as well as informed readers with an interest in racism and racial inequality and a passion to end it.

Racial Theories in Social Science
Sean Elias, Joe R. Feagin, 2016-04-14

Racial Theories in Social Science: A Systemic Racism Critique provides a critique of the white racial framing and lack of systemic racism analysis prevalent in past and present mainstream race theory. As this book demonstrates, mainstream racial analysis and social analysis more generally remain stunted and uncritical because of this unhealthy white framing of knowledge and evasion or downplaying of institutional, structural, and systemic racism. In response to ineffective social science analyses of racial matters, this book presents a counter-approach to systemic racism theory. The foundation of this theoretical perspective lies in the critical insights and perspectives of African Americans and other people of color who have long challenged biased, white-framed perspectives and practices and the racially oppressive and exclusionary institutions and social systems created by whites over several centuries.

Racist Stereotypes in Childish Gambino's song "This is America". Reproduction or Dismantling? Jessica Meier,2023-01-18 Bachelor Thesis from the year 2022 in the subject American Studies Culture and Applied Geography grade 1 7 University of Koblenz Landau Anglistik language English abstract This thesis poses the research question whether Donald Glover reproduces or dismantles racial stereotypes in the music video This is America In order to get to the root of this question one first must understand the concept of racism and the purpose racism fulfils in the social system of the United States Then the racist stereotypes need to be elaborated because they are only visible and perceptible when known Because of the male biased gender statistics and the fact that Donald Glover as a black man is the main protagonist of the video the representation of black masculinity is an

interesting additional aspect to be illuminated especially regarding the hip hop genre of the song In the analysis the music video is examined based on the semiotic approach and the theoretical foundation Finally a conclusion to the research question is drawn based on the multifaceted results A music video that can hardly be surpassed in semiotic richness is This is America by Donald Glover released under his pseudonym Childish Gambino The music video tackles gun violence systemic racism slavery and juxtaposes jaunty images of dancing school children with shocking scenes of Gambino shooting a black man and gunning down a black choir While the music video features the aforementioned racist stereotypes the effect on the viewer is peculiar The video has provoked a strong social reaction and has been highly discussed in the media after the death of George Floyd in May 2020 and the resulting protests the song has become the anthem for people posting footage of the protests on TikTok Until January 2021 the video was watched 750 776 033 times vinyl records of the song are sold for 418 on eBay The topic and therefore the video itself has not lost significance today and goes on like the echo of a disturbing American history The song has become a worldwide phenomenon following numerous analysis and interpretations of the innumerable obvious and unapparent images and this thesis does not foresee to reproduce such an analysis but to take a closer look at the racist stereotypes the video alludes to and on how they are used Many of the stereotypes elaborated by Bogle 2016 as well as more generalized attributions of black masculinity in hip hop culture are represented in the video but differ strongly from typical music videos in this genre in the widespread reception which leads to the question of how stereotypes are embedded here
