International Tables for Crystallography, Volume I Christopher Chantler,Bruce Bunker,Federico Boscherini,2024-08-19 X
ray absorption spectroscopy and X ray emission spectroscopy are complementary to crystallographic methods particularly for
materials science and the study of nanostructure and systems with partial disorder and partial local order including solutions
gases liquids glasses and powders This new volume of International Tables for Crystallography has nine parts and over 150
chapters contributed by a wide range of international experts Part 1 provides a brief overview and introduction to the
background of X ray absorption spectroscopy XAS and experimental facilities Part 2 discusses the quantum theory of XAS
and related approaches Part 3 describes both standard and advanced experimental methods used in XAS X ray emission
spectroscopy XES and related techniques Part 4 covers both standard and more advanced pre processing of data Part 5 gives
an extensive overview of the analysis of experimental data Part 6 provides details of the major software packages for data
collection reduction and analysis Part 7 outlines the importance in science reporting and hypothesis testing of the exchange
of input and processed output data and data deposition It also presents excerpts of tables of data and supplementary material
for XAS pre edge studies X ray absorption near edge spectroscopy XANES and X ray absorption fine structure XAFS studies
These tables are also available in full as online supporting information Part 8 explores a wide range of applications of XAS in
fields including materials science physics chemistry biology earth sciences catalysis and cultural heritage Part 9 presents
definitions of the terms and quantities used as developed by the International Union of Crystallography s Commission on
XAFS The volume has been written for the worldwide XAS community of thousands of practitioners beamline scientists
experts and academics and for the novice user who wishes to know what XAS and XES can do for them and how they may use
these techniques for their particular purposes The volume is therefore intended to be a self contained authoritative reference
work that can also be used for training learning or teaching providing practical guidance for readers of all levels of
