Taboo Volume 9

Richard B. Ulman, Harry Paul

Taboo Volume 9:

Freud's Monotheism William Parsons, 2023-01-26 This Element consists of three interrelated parts What Freud Said summarizes the salient details of Freud's psychology of religion his views on the origins and development of western religions on contemporary western monotheisms on the unpsychological proceedings of the religio cultural super ego his qualified endorsement of religious forms of psychotherapy and his cursory analysis of eastern religions What Freud got Wrong surveys the history of the multidisciplinary critiques anthropological sociological later psychoanalytic theological philosophical that have been levelled at his interpretative strategies Towards a Revised Psychoanalytic Theory of Religion suggests that the best way forward is to employ a psychoanalytic theory of religion which taking its cue from the history of its critique houses reflective inclusive and dialogical elements It presents illustrations taken from a variety of contemporary religio cultural phenomena marvel movies issues concerning religion sexuality and gender the Megachurch QAnon as portable lessons for such applications

Hermeneutics and the Psychoanalysis of Religion Stephen J. Costello, 2010 This book is a philosophical study of the Freudian psychoanalysis of religion from a hermeneutical perspective Drawing on the work of Paul Ricoeur the twentieth century French phenomenologist the author offers a sustained and rigorous reflection on Freud's critique of Christian religion and raises the pertinent question of whether psychoanalysis should be conceived of as a form of hermeneutics To this end the author details the often acrimonious debates and discussions that took place between Ricoeur and Jacques Lacan as well as drawing on the work of Slavoj Žižek on this intriguing subject with Lacan and Žižek resisting any attempt to interpret psychoanalysis along the lines of hermeneutics Having brought Ricoeur's reflections to bear on both Freud and Lacan the author next engages with the Thomist metaphysical tradition He deals especially with Aquinas famous five arguments for the existence of God the relevance of which becomes apparent in the last chapter when the author sheds a Lacanian light on Thomas mystical experience The author argues that the real God the God of Thomas experience pertains to the Lacanian order of the Real The book concludes with a précis on the beauty of belief

The Self Psychology of Addiction and its Treatment Richard B. Ulman, Harry Paul, 2013-04-03 In the time of Freud the typical psychoanalytic patient was afflicted with neurotic disorders however the modern day psychotherapy patient often suffers instead from a variety of addictive disorders As the treatment of neurotic disorders based on unconscious conflicts cannot be applied to treatment of addictive disorders psychoanalysis has been unable to keep pace with the changes in the type of patient seeking help To address the shift and respond to contemporary patients needs Ulman and Paul present a thorough discussion of addiction that studies and analyzes treatment options Their honest and unique work provides new ideas that will help gain access to the fantasy worlds of addicted patients The Self Psychology of Addiction and Its Treatment emphasizes clinical approaches in the treatment of challenging narcissistic patients struggling with the five major forms of addiction Ulman and Paul focus on six specific case studies that are illustrative of the five forms of addiction They use the

representative subjects to develop a self psychological model that helps to answer the pertinent questions regarding the origins and pathway of addiction This comprehensive book links addiction and trauma in an original manner that creates a greater understanding of addiction and its foundations than any clinical or theoretical model to date Catalogue Peabody Museum of Archaeology and Ethnology. Library,1963 Myth and the Human Sciences Angus Nicholls,2014-12-05 This is the first book length critical analysis in any language of Hans Blumenberg s theory of myth Blumenberg can be regarded as the most important German theorist of myth of the second half of the twentieth century and his Work on Myth 1979 has resonated across disciplines ranging from literary theory via philosophy religious studies and anthropology to the history and philosophy of science Nicholls introduces Anglophone readers to Blumenberg s biography and to his philosophical contexts He elucidates Blumenberg s theory of myth by relating it to three important developments in late nineteenth and early twentieth century German philosophy hermeneutics phenomenology and philosophical anthropology while also comparing Blumenberg s ideas with those of other prominent theorists of myth such as Vico Hume Schelling Max M ller Frazer Sorel Freud Cassirer Heidegger Horkheimer and Adorno According to Nicholls Blumenberg s theory of myth can only be understood in relation to the human sciences since it emerges from a speculative hypothesis concerning the emergence of the earliest human beings For Blumenberg myth was originally a cultural adaptation that constituted the human attempt to deal with anxieties concerning the threatening forces of nature by anthropomorphizing those forces into mythic images In the final two chapters Blumenberg s theory of myth is placed within the post war political context of West Germany Through a consideration of Blumenberg s exchanges with Carl Schmitt as well as by analysing unpublished correspondence and parts of the original Work of Myth manuscript that Blumenberg held back from publication Nicholls shows that Blumenberg s theory of myth also amounted to a reckoning with the legacy of National Socialism **Catalogue: Subjects** Peabody Museum of Archaeology and Ethnology. Library,1963 Psychoanalysis and Religious Experience William W. Meissner,1986-01-01 In this provocative book W W Meissner a Jesuit and psychoanalyst attempts to bring about a rapprochement between psychoanalysis and religious thinking Utilizing the resources of modern psychoanalytic insight he examines Freud s views on religion explores the dialectical relationship between psychoanalysis and religion and applies more contemporary concepts in psychoanalysis to the understanding of religious experience Dr Meissner has written a book which is consistently interesting often challenging and impressive for its wide range of scholarship in two fields not often combined in the same work Dr Meissner has done us a service in this scholarly work by demonstrating how two perspectives of the human condition have over the course of the last several decades come to similar conclusions Otto F Thaler M D Journal of the American Academy of Religion A rich and stimulating book addressing important issues that lie at the intersection of psychoanalysis and religion Paul C Vitz Contemporary Psychology Meissner has made a challenging useful contribution that will be pondered applied and debated It will undoubtedly also achieve the goal of bringing about more

understanding between analysts and theologians Lowell Rubin M D Newsletter Boston Psychoanalytic Society and Institute
Naked Truths Ann O Koloski-Ostrow, Claire L Lyons, 2003-09-01 The articles in Naked Truths demonstrate the application of feminist theory to a diverse repertory of classical art they offer topical and controversial readings on the material culture of the ancient Mediterranean This volume presents a timely provocative and beautifully illustrated re evaluation of how the issues of gender identity and sexuality reveal naked truths about fundamental human values and social realities through the compelling symbolism of the body **A Provisional List of Nebraska Authors** Sophia Josephine Lammers, 1918
