### **The History of the Confederate War, Its Causes and Its Conduct: A Narrative and Critical History (Complete)**

George Cary Eggleston, The war of 1861-65 was in fact a revolution. Had the South succeeded in the purposes with which that war was undertaken it would have divided the American Republic into two separate and independent confederations of states, the Union and the Southern Confederacy. The North having succeeded, no such division was accomplished, but none the less was a revolution wrought, as has been suggested in the introductory chapter of this work. Familiarly and by way of convenience we are accustomed to call this The Civil War, in contradistinction from those other wars in which the American power has been arrayed against that of foreign nations. But the term Civil War, as thus applied, is neither accurate nor justly descriptive. In all that is essential to definition this was a public and not a civil war, and it is necessary to a just understanding of the struggle and its outcome to bear this fact in mind. Otherwise the entire attitude and conduct of the Federal government toward its antagonist must be inexplicable, inconsistent, and wanting in dignity. The Southern States asserted and undertook to maintain by a resolute appeal to arms their right to an independent place among the nations of the earth. In the end they failed in that endeavor. But while the conflict lasted they so far maintained their contention as to win from their adversary a sufficient recognition of their attitude to serve all the purposes of public rather than civil war. They instituted and maintained a government with a legislature, an executive, a judiciary, a department of state, an army, a navy, a treasury, and all the rest of the things that independent nations set up as the official equipment of their national housekeeping. Not only did foreign powers recognize their right to make war, not as rebels but as legitimate belligerents, entitled to all the consideration that the laws of civilized war guarantee to nations, but the United States government itself made similar recognition of the South's status as a power possessed of the right to make war.

*The History of the Confederate War, Its Causes and Its Conduct, Vol.1 (of 2)* George Cary Eggleston, During the years from 1861 to 1865 one of the greatest wars in all history was fought in this country There were in all three million three hundred and seventy eight thousand men engaged in the fighting of it There are not that many men in all the regular standing armies of Europe combined even if we include the unpaid hordes of Turkey and the military myriads of the armed camp known to geography as Russia The actual fighting field of this war of ours was larger than the whole of western Europe and all of it was trampled over and fought over by great armies The men killed or mortally wounded in our war numbered on the Northern side alone 110 000 The total number of deaths resulting from military operations on the Northern side alone was 350 000 The figures for the Southern side are not accessible owing to the loss of records But as the fighting was equally determined on both sides and as other conditions were substantially equal it is certain that the losses of life were relatively about the same on both sides It is well within the facts therefore to say that this war of ours directly caused the death of more than half a million men No other war in modern history has cost so many lives or half so many We hear much of our recent war with Spain Let us take it as a basis of comparison The total number of men even nominally called into the field in that war was less by nearly two to one than the deaths alone during the Confederate war The number of men who were actually engaged in the Spanish war numbered only about one tenth as many as those who were buried as victims of the Confederate war s battle fields Again

the total number of men killed and wounded during the Spanish war including every man who was touched by a bullet or scratched by a sword or bayonet thrust or hurt by a splinter at sea was only two hundred sixty eight That is fewer than the number who were stricken in each of many before breakfast skirmishes of the Confederate war some of which were deemed too insignificant to be reported to headquarters with precision Looking for higher standards of comparison we find that 43 449 men fell killed or wounded at Gettysburg alone That is almost double the loss of the allied forces at Waterloo and probably equal to the total losses on both sides at that greatest and most decisive of European battles There were more than a dozen other battles of the Confederate war which in slaughter fairly deserved comparison with Waterloo These included the Seven Days battle before Richmond and the battles of Fredericksburg Chancellorsville Antietam Shiloh Chickamauga the Wilderness Spottsylvania Cold Harbor the Second Manassas or Bull Run Stone River Petersburg Franklin Lookout Mountain Nashville and several others Still another measure of the magnitude of a war is its duration It is duration indeed that chiefly determines the amount of human suffering caused by a war especially to the women and children who are war s chief victims Measured by this test of duration the Confederate war exceeded all other recent conflicts in the magnitude of the suffering it inflicted Its first gun was fired at Fort Sumter in April 1861 its last armed conflict did not occur until May 1865 Thus for four years and a month the war endured The Crimean war one of the longest of nineteenth century conflicts endured for less than half that length of time and the actual fighting of it lasted less than one fourth as long The duration of the Confederate war was seven times as great as that of the stupendous Franco Prussian conflict of 1870 which overthrew the second Napoleonic empire consolidated Germany and made the republic an enduring fact in France It was twenty four times as long as that of the French Austrian war which set Italy free or as the War of 1866 between Austria and Prussia which laid the foundations of the present German empire

Look Away! William C. Davis, 2002-04-12 William C Davis one of America s best Civil War historians here offers a definitive portrait of the Confederacy unlike any that has come before Drawing on decades of writing and research among an unprecedented number of archives Look Away tells the story of the Confederate States of America not simply as a military saga although it is that but rather as a full portrait of a society and incipient nation The first history of the Confederacy in decades the culmination of a great scholar s career Look Away combines politics economics and social history to set a new standard for its subject Previous histories have focused on familiar commanders such as Robert E Lee and Stonewall Jackson but Davis s canvas is much broader From firebrand politicians like Robert Barnwell Rhett and William L Yancey who pushed for secession long before the public supported it to Dr Samuel Cartwright who persuaded many Southerners of the natural inferiority of their slaves to the women of Richmond who rioted over bread shortages in 1863 Davis presents a rich new face of the Confederate nation He recounts familiar stories of battles won and lost but also little known economic stories of a desperate government that socialized the salt industry home front stories of the rangers and marauders who preyed on their fellow Confederates and an account of the steady breakdown of law culminating in near

anarchy in some states Never has the Confederacy been so vividly brought to life as a full society riven with political and economic conflicts beneath its more loudly publicized military battles Davis s astonishingly thorough primary research has ranged across the 800 odd newspapers that were in operation during the war but also across the personal papers of over a hundred Southern leaders and ordinary citizens He quotes from letters and diaries throughout the narrative revealing the Confederacy through the words of the Confederates themselves Like any society especially in the early stages of nation building and the devastating stages of warfare the Confederacy was not one thing but many things to many people One thing however was shared by all the belief that the South offered a necessary evolution of American democracy Look Away offers a dramatic and definitive account of one of America s most searing episodes *A Short History of the Confederate States of America* Jefferson Davis,1890 *The Confederate Nation: 1861-1865* Emory M. **The History of the Confederate War, Its Causes and Its Conduct, Vol.2 (of 2)** George Cary Eggleston, To be continue from Volume1 In the meantime great events were occurring which were in some respects more important in their bearing on the war than battles would have been In these events the war recognized itself and adapted itself to its conditions From the beginning the abolitionists had clamorously and ceaselessly demanded of Mr Lincoln that he should recognize the actual cause of the war by proclaiming freedom for the slaves at the South There was no doubt in anybody s mind that the war was simply the culmination of that irrepressible conflict between the systems and sentiments of free and slave labor which had constituted the burden of the country s history for nearly half a century If there had been no slavery there would have been no war It is true that a very large proportion of the Southern people regretted slavery deprecated its existence and earnestly desired to be rid of it It is also true that the great mass of the Southerners were non slaveholders and that their fighting was done not for the perpetuation of that institution in which they had no interest but in assertion of those reserved rights of the individual states upon the maintenance of which they sincerely believed that the liberty of the people depended These people desired to take their states out of the Union not for the sake of slavery but for the sake of that right of local self government which they regarded as the fundamental condition of liberty among men On the other hand a large proportion of the Northern people cared little or nothing about slavery many of them even approving the institution as the only practicable arrangement under which blacks and whites could live peaceably together and as a condition eminently proper for the incapable black man But these believed in the maintenance of the Union as a condition of liberty and progress and were ready to sacrifice their lives and their possessions in behalf of that end Nevertheless it was clear from the beginning that in the last analysis the war involved as its issue the maintenance of slavery or the destruction of that system root and branch Personally Mr Lincoln hated slavery and very earnestly desired its extermination But as he reminded those who beset him with unsolicited advice he was restrained by his oath of office while they were free to advocate any principle or policy that might seem good in their eyes Moreover he had upon him the tremendous task of preserving the Union and in aid of that supreme purpose he was ready to sacrifice all other considerations of what kind soever In answer to an impassioned appeal from Horace Greeley in August 1862 Mr Lincoln set forth his attitude in these words My paramount object is to save the Union and not either to save or destroy slavery If I could save the Union without

freeing any slave I would do it If I could save it by freeing all the slaves I would do it And if I could do it by freeing some and leaving others alone I would also do that At the beginning Mr Lincoln had clearly seen the necessity of winning all the support he could to his war measures He had seen that while practically the whole population of the North would stand by him in a war for the preservation of the Union there must be a very great and dangerous defection should he make the war one for the extirpation of slavery in those states in which the institution existed under protection of the Federal Constitution By thus resolutely refusing to make the war a crusade against slavery and declaring as he did in his official utterances that it was no part of his purpose to interfere with the domestic institutions of any state Mr Lincoln had drawn to his support a vast body of influential citizens who would otherwise have opposed and whose influence was great enough perhaps if it had been offended to have robbed him of the means of restoring the disrupted Union Had he adopted the policy

A Short History of the Confederate States of America Jefferson Davis,2023-05-23 One of the most interesting and historical documents to emerge from the American Civil War this account of that mighty and historical conflict was penned by none other than the leader of the Confederate States of America Written in the first person this work tells not only of the major events of the war as experienced by the president of one of the warring sides but also spells out the background as seen by the South of the origins of the conflict Along the way it addresses the constitutional issues which lay at the heart of the war slavery states rights and the usurpation of the U S Constitution Jefferson proves beyond question that the Confederacy was in fact adhering to the letter of the law of the U S Constitution Most of the book however concentrates on the events which raged from 1861 to 1865 and the desperate attempts by the South to prepare for war against a far superior North This new edition has been completely reset and contains hundreds of new footnotes to explain events personalities and issues to the present day reader Illustrated

*The Confederate Nation* Emory M. Thomas,2011-03-15 Definitive and unsurpassed *The Confederate Nation* is the renowned history of the Confederacy by Emory M Thomas one of America s most eminent Civil War historians Richmond Times Dispatch Thomas s masterful account delivers a clear analysis of the origins of secession a gripping narrative of the military campaigns that shaped the Civil War and a compelling portrait of the Southern people during the country s most turbulent era Now featuring a new introduction by the author *The Confederate Nation* is the quintessential exploration of the American South in the Civil War years

**The Rise and Fall of the Confederate Government** Jefferson Davis,1881 A history of the Confederate States of America and an apologia for the causes that the author believed led to and justified the American Civil War

Reluctant Rebels Kenneth W. Noe,2010-05-14 After the feverish mobilization of secession had faded why did Southern men join the Confederate army Kenneth Noe examines the motives and subsequent performance of later enlisters He offers a nuanced view of men who have often been cast as less patriotic and less committed to the cause rekindling the debate over who these later enlistees were why they joined and why they stayed and fought Noe refutes the claim that later enlisters were more likely to desert or perform poorly in battle and reassesses the argument that they were

less ideologically savvy than their counterparts who enlisted early in the conflict He argues that kinship and neighborhood not conscription compelled these men to fight they were determined to protect their families and property and were fueled by resentment over emancipation and pillaging and destruction by Union forces But their age often combined with their duties to wear them down more quickly than younger men making them less effective soldiers for a Confederate nation that desperately needed every able bodied man it could muster Reluctant Rebels places the stories of individual soldiers in the larger context of the Confederate war effort and follows them from the initial optimism of enlistment through the weariness of battle and defeat
