Political Theology: A Guide for the Perplexed Elizabeth Phillips, 2012-06-07 There is an increasingly intense interest in political theology amongst contemporary scholars and students Yet while there are many authors engaging in political theology there are very few resources about political theology which aim to orient students and other recent new comers to the field This is a concise and accessible advanced introduction which distinguishes various approaches to political theology and which explores several of the central issues addressed in political theologies Theological students will be able to approach courses and readings in political theology with a renewed confidence with this overview in hand

Imitating Christ in Magwi Todd D. Whitmore, 2019-01-24 Imitating Christ in Magwi An Anthropological Theology achieves two things First focusing on indigenous Roman Catholics in northern Uganda and South Sudan it is a detailed ethnography of how a community sustains hope in the midst of one of the most brutal wars in recent memory that between the Ugandan government and the rebel Lord s Resistance Army Whitmore finds that the belief that the spirit of Jesus Christ can enter into a person through such devotions as the Adoration of the Eucharist gave people the wherewithal to carry out striking works of mercy during the conflict and like Jesus of Nazareth to risk their lives in the process Traditional devotion leveraged radical witness Second Gospel Mimesis is a call for theology itself to be a practice of imitating Christ Such practice requires both living among people on the far margins of society Whitmore carried out his fieldwork in Internally Displaced Persons camps and articulating a theology that foregrounds the daily if extraordinary lives of people Here ethnography is not an add on to theological concepts rather ethnography is a way of doing theology and includes what anthropologists call thick description of lives of faith Unlike theology that draws only upon abstract concepts what Whitmore calls anthropological theology is consonant with the fact that God did indeed become human It may well involve risk to one s own life Whitmore had to leave Uganda for three years after writing an article critical of the President but that is what imitatio Christi sometimes requires

The Dangers of Christian Practice Lauren F. Winner, 2018-10-23 Challenging the central place that practices have recently held in Christian theology Lauren Winner explores the damages these practices have inflicted over the centuries Sometimes beloved and treasured Christian practices go horrifyingly wrong extending violence rather than promoting its healing In this bracing book Lauren Winner provocatively challenges the assumption that the church possesses a set of immaculate practices that will definitionally train Christians in virtue and that can t be answerable to their histories Is there for instance an account of prayer that has anything useful to say about a slave owning woman s praying for her slaves obedience Is there a robustly theological account of the Eucharist

that connects the Eucharist's goods to the sacrament's central role in medieval Christian murder of Jews. Arguing that practices are deformed in ways that are characteristic of and intrinsic to the practices themselves, Winner proposes that the register in which Christians might best think about the Eucharist prayer and baptism is that of damaged gift. Christians go on with these practices because though blighted by sin they remain gifts from God. **The Mennonite Quarterly Review**, 2010. *Journal of the Society of Christian Ethics*, 2008. **Paul among the Postliberals** Douglas Harink, 2003-02. Illuminates Paul's letters by creating fascinating links between Pauline scholarship and the writings of postliberals such as Stanley Hauerwas and John Howard Yoder. Handbook of Narrative Inquiry D. Jean Clandinin, 2007. The Handbook of Narrative Inquiry is the first comprehensive and interdisciplinary overview of the developing methodology of narrative inquiry. International in scope, this Handbook outlines the historical development and philosophical underpinnings of narrative inquiry and describes different forms of narrative. This one-of-a-kind volume offers a methodological map of this field of inquiry and encourages further dialogue, discussion, and experimentation as the field continues to develop. Key Features: Offers coverage of various disciplines and viewpoints from around the world. Leading international contributors draw upon narrative inquiry as conceptualized in Anthropology, Sociology, Psychology, Philosophy, Nursing, and other disciplines. Illustrates the range of narrative inquiry forms. The Handbook presents both conceptual and practical, in-depth descriptions of narrative inquiry. Portrays how narrative inquiry is applied to research in different professional fields. The contributors pay particular attention to representational issues, ethical issues, and some of the complexities of narrative inquiry with indigenous and cross-cultural participants, in addition to child participants. *Zygon*, 2008. U.S. Catholic Historian, 2005. The Making and Unmaking of Technological Society Murray Jardine, 2004. Our inability to make ethical sense of technology is at the root of a crisis. This book advocates a Christianity that fully understands technology, its responsibilities, and its possibilities. *Catholic Moral Theology in the United States* Charles E. Curran, 2008. In this magisterial volume, Charles E. Curran surveys the historical development of Catholic moral theology in the United States from its 19th-century roots to the present day. He begins by tracing the development of pre-Vatican II moral theology that, with the exception of social ethics, had the limited purpose of training future confessors to know what actions are sinful and the degree of sinfulness. Curran then explores and illuminates the post-Vatican II era with chapters on the effect of the Council on the scope and substance of moral theology, the impact of *Humanae vitae*, Pope Paul VI's encyclical condemning artificial contraception, fundamental moral theology, sexuality and marriage, bioethics, and social ethics. Curran's perspective is unique. For nearly 50 years, he has been a major influence on the development of the field and has witnessed first-hand the dramatic increase in the number and diversity of moral theologians in the academy and the Church. No one is more qualified to write this first and only comprehensive history of Catholic moral theology in the United States. **The Gift of Difference** Chris K. Huebner, Tripp York, 2010. When the Radical Reformers demanded the separation of church and state, it was not to privatize

their convictions or depoliticize the church but rather an attempt to recognize Jesus as Lord over all The theological movement known as Radical Orthodoxy is currently rethinking theology s influence by secular modernity thereby making a bold critique of contemporary Christianity It should not be surprising that Anabaptist theologians have found theological kinship with Radical Orthodoxy Taking their cues from John Howard Yoder Henri de Lubac Jacques Derrida Stanley Cavell Hans Urs von Balthasar Stanley Hauerwas and others writers in this volume engage Radical Orthodoxy on topics such as ecclesiology martyrdom worship oath taking peace and violence Amazon **First Things** ,2003 **Book Review Digest** ,2008 **International Bibliography of Book Reviews of Scholarly Literature Chiefly in the Fields of Arts and Humanities and the Social Sciences** ,2001 *Revelation and Theopolitics* Randi Rashkover,2005 No Marketing Blurb *International Kierkegaard Commentary: Eighteen upbuilding discourses* Robert L. Perkins,2003 **Religious and Theological Abstracts** ,2005
