Russia's Part in the World War C. M. SHUMSKY-SOLOMONOV, The author of this pamphlet Colonel C M Shumsky Solomonov is an officer of the Russian Army a distinguished soldier and an authority on military problems Col Shumsky Solomonov was one of the defenders of Port Arthur during the Russo Japanese War and as a military expert of the Petrograd daily Birjeviya Viedomosti he was well known not only in Russia but also throughout Europe The purpose of this pamphlet is to present Russia s part in the recent War Russia at present lies in seas of blood and tears because of her enormous sacrifices in the struggle against Prussian militarism The nightmare of Bolshevism was able to overtake Russia because she was exhausted by three years of active participation in the War during which her casualties reached 12 000 000 and her economic life became overstrained and partially destroyed Russia s present pitiful condition is the result of her self sacrificing services to humanity According to the data quoted by Col Shumsky Solomonov of the 12 000 000 Russian casualties in the recent War not less than 3 000 000 were in dead Russia s losses says Col Shumsky Solomonov are more than twice those of France four five times those of England and more than thirty five times those of America Russia s losses are more than twice the total strength of the British Army and three four times all the forces mustered by the United States The number of Russia s casualties is larger than the total population of any of the following European countries Sweden Norway Denmark Portugal Belgium Holland or the Balkan States If Russia had not sacrificed 3 000 000 of her best youth now sleeping on the battle fields of Europe a Prussian bayonet would now be ruling the world As Col Shumsky Solomonov points out the great role played by Russia in the recent struggle became apparent at the very beginning of the War in the important aid she rendered in frustrating the initial and most dangerous plan of the Germans by her early offensive in aid of the Allies

Russia having diverted against herself the entire Austrian army and part of the German at the time of the battle on the Marne through her offensive in East Prussia and Galicia deprived the enemy of the opportunity to realize the fundamental idea of Moltke's plan to fling all forces into France. At the following attempt of the enemy to find a decision in France to break through to Calais at Ypres says Col Shumsky Solomonov Russia by the blows she delivered in Galicia at Warsaw and in East Prussia contributed to the early termination of this second offensive in France so dangerous to England and compelled the Germans for more than a year to abstain from their main operations on the main decisive front of the War in France. In 1915 Russia having shouldered alone the whole burden of the struggle against Germany Austria and Turkey although forced to abandon Poland still gave the Allies the opportunity to prepare throughout a whole year for the coming German offensive at Verdun. In 1916 Russia thanks to the Brusilov offensive saved Italy at that critical moment when the Austrians through their successful offensive from Tyrol in the rear of the Italians threatened to cut off a considerable portion of the Italian Army at the same time menacing Venice. Together with this Russia by this offensive greatly facilitated the operations of the Allies on the Somme and was instrumental in the final clearing of the Verdun forts. In the same year Russia took upon herself the blows of Mackensen's and Falkenhayn's armies which had invaded Roumania stopped the further advance of the Germans and undertook the defense of a considerable stretch of the Roumanian front.

Each expertly authored chapter outlines the nature of one major issue traces its evolution and policy developments under the Yeltsin and Putin presidencies and evaluates the effectiveness and prospects of efforts to come to grips with the challenge.
