## **Tigers Tail:**

A Tigers Tale Terry N. Moore, 2008-11 This book is about growing as a child as a person as a player as a man husband and father Growth requires learning from mistakes you have made and will make It s about watching and listening to others who can help you to not always take the hardest road A Tigers Tale will help you to see that you can stand in the midst of adversities and come out on top There are and will always be opportunities to quit but don t do it I had many failures and a few victories in my football career but God has helped me to forget and has redeemed the time I wasted goofing off instead of taking full advantage of the opportunities that were set before me My life recruitment and career is a tale that I hope will make you laugh and may possibly bring you to tears I really hope that by the end of this book you will be encouraged in your walk through life with the Lord Don t give up on your dreams and never let your life be summed up in a relatively short period of time where of missed opportunity People may try to make your whole life s meaning about that one period of time but refuse to yield to this just pick up and go forward to the next opportunity Terry is a former Auburn Tiger He played football from 1981 through 1985 Terry has been a pastor for 18 years He is married to Lisa his wife of eighteen years Terry and Lisa have four girls Jordan Nicolle Erin and Jillian Terry was the pastor of Faith Family Church in Visalia CA for thirteen years before returning to Alabama for a brief time in 2006 where he served as an associate pastor Terry and his family currently reside in Tiburon CA

**Mangrove Tiger** Jayanta Kumar Mallick, 2023-11-25 This book contains well researched literature review field surveys and personal experience on the origin and adaptation of Bengal tiger *Panthera tigris tigris* the only large carnivore species inhabiting the mangrove forests across the world The Bengal tiger population in this mangrove habitat is isolated from other mainland populations and exhibits certain distinctive morphological adaptations Unlike the mainlanders these islanders are much smaller suggesting insular dwarfism more muscular with leaner frame and lesser body mass 100 kg The stress factor associated with changes in their natural habitat and the availability of the smaller prey species is often related to such phenomenon Apart from the long stretch swimming the tiger has adapted to changed food habits and become omnivore Loss and degradation of the mangrove habitat has caused severe decline of the tiger population Tiger conservation within and beyond the protected areas is based on the ethical issues biodiversity aesthetic values and integrity as well as management of the mangrove ecosystem challenged by development works and anthropogenic activities A published book highlighting the updated information on the migratory behaviour morphological and behavioural adaptations of the Bengal tiger in the mangrove eco system is not readily available This monograph is ideal for researchers postgraduate and graduate students in zoology botany ecology and conservation This comprehensive treatise will also serve professionals such as foresters environmentalists conservationists resource managers planners government agencies academic institutions NGOs and naturalists
