Leadership and Management are two very different concepts though are intrinsically interconnected. For an organisation to perform at its best, a strategic combination of both Leadership and Management is required. This booklet is a compilation of all the assignments and answers provided through thorough research using a wide range of resources. It is anticipated that the compendium will be a valuable document to consult for anyone aspiring to be an excellent manager or leader in their organisation.

and cortisol to either fight the beast or flee to safety This fight or flight response served them well in life or death situations that lasted minutes not months Today s stressors are vastly different We don t face mammoths but we do face mounting deadlines financial pressures relationship conflicts and the constant barrage of information that demands our attention The problem is that our bodies haven t evolved to distinguish between a charging mammoth and a demanding boss Our stress response system treats them with equal urgency keeping us in a state of chronic alertness that wreaks havoc on our physical and mental well being
