Understanding The Middle East:

Understand the Middle East (since 1945): Teach Yourself Stewart Ross,2010-08-27 Understand the Middle East since 1945 is an essential guide to one of the world's most turbulent regions. It examines the origins and development of the events which have dominated the headlines for the last six decades. Covering everything from religion and politics in the aftermath of the Second World War to the Israeli-Palestinian conflict, war in Iraq and the terrorism of the present day, it will change the way you think about the region. NOT GOT MUCH TIME One five and ten minute introductions to key principles to get you started. AUTHOR INSIGHTS Lots of instant help with common problems and quick tips for success based on the author's many years of experience. EXTEND YOUR KNOWLEDGE Extra online articles at www.teachyourself.com to give you a richer understanding. THINGS TO REMEMBER Quick refreshers to help you remember the key facts. **Middle East Realities: A Guide to Understanding: 2nd Edition** Oliver James,2016-07-08 The perceptions and attitudes that exist today between the East and the West had their origins in former times and earlier civilizations but have been exacerbated by current day acts of hostility and the re-emergence of an intimidating ideology. This seemingly unending conflict is no longer confined to the Middle East but is now wreaking havoc on a good part of the western world, changing lifestyles and decimating economies. We are engaged in a war against terror without clearly understanding the enemy we face or the inspiration behind the zeal that drives people to bring harm to us at any cost. *Middle East Realities* recounts the genesis of today's conflict, reviews the histories and natures of the key players and explains those factors that drive their actions. This brief and easy to read book aims to leave the reader with an improved understanding of this debilitating and broadening concern that is growing increasingly perilous and ever intrusive. **Understanding the Middle East** Edward Trimnell,2007-04-01 Explore the history of conflict in the Middle East from ancient times to today's headlines. Take a balanced but unflinching look at the warring civilizations of the ancient Middle East. The early expansion of Islam. What most textbooks don't tell you about the Crusades. Wars between Israel and its Arab neighbors. The Israeli-Palestinian conflict. Why religion and politics are intertwined in the Middle East. How Iran became an Islamic Republic. Iraq from ancient times to the post-Saddam era. How Bin Laden became a radical and then a terrorist. Islamist terror beyond the Middle East and much, much more. *Middle East Rules of Thumb* Steven Carol,2008-07 *Middle East Rules of Thumb* is of interest to anyone that seeks a better understanding of the complexities of the Middle East: its history, politics, diplomacy and culture. Through the 50 rules and their appendices, Professor Steven Carol offers a realistic historical perspective on this important region. As has been constantly pointed out by such media monitors as Honest Reporting, Palestine Media Watch and CAMERA, Middle East issues can often become muddled and confusing, particularly since the mainstream media often commits sins of biased omission, leaving out important information that can help the public comprehend the entire picture. The highly reliable information presented in *Middle East Rules of Thumb* seeks to counteract these inaccuracies. Readers will gain insight by applying these rules when

hearing or reading news or commentaries on these subjects Middle East Rules of Thumb is the product of many years of academic research It will not be readily dated like many other books in the field because the underlying principles compiled here are valid and immutable It belongs in the reference category for anyone concerned with war and peace in the Middle East **Understand the Middle East (since 1945)** Stewart Ross,2010 Understand the Middle East since 1945 examines the origins and development of the events which have dominated the headlines for the last six decades *Understanding the Contemporary Middle East* Jillian Schwedler,2020 The previous edition of Understanding the Contemporary Middle East was published soon after the Arab uprisings and the authors writing across disciplines captured those moments of possibility Now more than six years later the Middle East is substantially changed with three protracted civil wars several entrenched authoritarian regimes possibly one emerging democracy and social and economic conditions that have been profoundly affected by the new political environment This thoroughly revised and updated edition explores both the impact of recent events in shaping the region and the continuities with established patterns of political economic and social relations

Of Virgins and Martyrs David Jacobson,2013-01-31 Explores the role of women s status bodies and sexuality in global conflicts Women s bodies have

become a battleground Around the world people argue about veiling schooling for Afghan girls and SlutWalk protests all of which involve issues of women s sexuality and freedom Globalization with its emphasis on human rights and individuality heats up these arguments In *Of Virgins and Martyrs* David Jacobson takes the reader on a fascinating tour of how self identity developed throughout history and what individualism means for Muslim societies struggling to maintain a sense of honor in a globalized twenty first century Some patriarchal societies have come to see women s control of their own sexuality as a threat to a way of life that goes back thousands of years Many trace their lineage to tribal cultures that were organized around the idea that women s virginity represents the honor of male relatives and the good of the community at large Anyone or anything that influences women to the contrary is considered a corrupting and potentially calamitous force Jacobson analyzes the connection between tribal patriarchy and Muslim radicalism through an innovative tool the tribal patriarchy index This index helps to illuminate why women s sexuality dress and image so compel militant Muslim outrage and sometimes violent action revealing a deeper human story of how women s status defines competing moral visions of society and why this present clash is erupting with such ferocity
