Reich,2002-01-08 If you think it s getting harder to both make a living and make a life economist and former secretary of labor Robert Reich agrees with you Americans may be earning more than ever before but we re paying a steep price we re working longer seeing our families less and our communities are fragmenting With the clarity and insight that are his hallmarks Reich delineates what success has come to mean in our time He demonstrates that although we have more choices as consumers and investors the choices themselves are undermining the rest of our lives It is getting harder for people to be confident of what they will be earning next year or even next month At the same time our society is splitting into socially stratified enclaves the wealthier walled off and gated the poorer isolated and ignored Although the trends he discusses are powerful they are not irreversible and Reich makes provocative suggestions for how we might create a more balanced society and more satisfying lives Some of his ideas may surprise you all should spark a healthy and essential national debate **Securities Law & the Internet** ,2001 *Winning the Silicon Sweepstakes* Rob Frieden,2010-01-01 In this timely book Rob Frieden points out the myriad ways the United States has fallen behind other countries in telecommunications Despite the appearance of robust competition and entrepreneurship in U S telecom markets there is very little of either Because of an inattentive Congress and a misguided Federal Communications Commission unwilling to confront real problems industry incumbents have been able to earn healthy profits while keeping the United States in the backwaters of Internet based information communication and entertainment markets At every turn regulators have tipped the scales in favor of large established companies creating an environment that stifles innovation As a consequence Americans are stuck with relatively slow connectivity and with equipment that lacks features that have been standard in other countries for years In telecommunications the United States is a little like a third world country that is developing under a crushing bureaucracy without recognizing that the rest of the world has passed it by Frieden shows how failure can intrude on the ability of the United States to compete and suggests how to restore its competitiveness Publisher s description **Challenge Magazine** ,2004 *Business Law and the Regulatory Environment* Jane P. Mallor,2001 Mallor s 11ed is designed to meet the needs of the two term course The first term is generally required of business majors and the second by accounting majors as it prepares them to sit for the CPA exam The cases in the 11ed are excerpted and edited by the authors however the syntax is not altered therefore retaining the language of the courts However this edition will now include a mix of actual AND hypothetical cases 11ed is easily available for customization Mallor is considered by the
