Undoing Place A Geographical Reader:

Undoing Place? Linda McDowell, 1997 Does geography affect our sense of self How are social characteristics mapped out on the ground And is there any authentic sense of place now or are we increasingly placeless Concentrating on the period between the end of the Second World War and the end of the century this Reader argues that there is a reciprocal relationship between the constitution of places and people What it means to be a man or a woman to have a nationality and a sense of place has been transformed and reinvented as our view of the world has changed The present is perceived as a time of fear a period in which all that is solid seems to melt into air while the 1950s are a site of nostalgia a period of clarity and certainty a time when people know their place Bringing together an interdisciplinary collection of articles for social and cultural geographers this Reader critically examines the argument that the close associations of the 1950s between place the home the community and the nation state and the social divisions gender class and nationality are breaking down in the 1990s Drawing out the oppositional movements in each decade it seeks to show how the supposed stability of one and the mobility of the other are exaggerated

Undoing Place? Linda McDowell, 1997-10-01 *People and Place* Lewis Holloway, Phil Hubbard, 2014-01-14 An innovative introduction to Human Geography exploring different ways of studying the relationships between people and place and putting people at the centre of human geography The book covers behavioural humanistic and cultural traditions showing how these can lead to a nuanced understanding of how we relate to our surroundings on a day to day basis The authors also explore how human geography is currently influenced by postmodern ideas stressing difference and diversity While taking the importance of these different approaches seriously as ways of thinking about the role of place in peoples everyday lives the book also tries to encapsulate what has been so vibrant and exciting about human geography over the last couple of decades By using examples to which students can relate such as how they imagine and represent their home the way they avoid certain spaces how they move through retail spaces where they choose to go to university how they use the Internet how they represent other nations and so on the authors show how geography shapes everyday life in a manner that is seemingly mundane yet profoundly important

Place Tim Cresswell, 2013-06-05 This text introduces students of human geography to the fundamental concept of place marrying everyday uses of the term with the complex theoretical debates that have grown up around it A short introduction to one of the most fundamental concepts in human geography Marries everyday uses of the term place with the more complex theoretical debates that have grown up around it Makes the debates intelligible to students using familiar stories as a way into more abstract ideas Excerpts and discusses key papers on place by Doreen Massey and David Harvey Considers empirical examples of ways in which the concept of place has been used in research Teaching and learning aids include an annotated bibliography lists of key readings and texts a survey of web resources suggested pedagogical resources and possible student projects

Sense of Place, Health and Quality of Life Allison Williams, 2016-12-05 A significant body of

theoretical and empirical studies describes sense of place as an outcome of interconnected psychological social and environmental processes in relation to physical place s Sense of place has been examined particularly in human geography in terms of both the character intrinsic to a place as a localized bounded and material entity and the sentiments of attachment detachment that humans experience and express in relation to specific places Scholars in a wide range of disciplines are increasingly exploring the relationship between place and health and recently the field of public health has been encouraged to recognize sense of place as a potential contributing factor to well being It is evident that over the last few decades sense of place has developed into a versatile construct This important book brings together work related to sense of place and health broadly defined from the perspective of a variety of fields and disciplines It will give the reader an understanding of both the range of applications of this construct within approaches to human health as well as the breadth of research methodologies employed in its investigation

Geography in America at the Dawn of the 21st Century Gary L. Gaile, Cort J. Willmott, 2005 Geography in America at the Dawn of the 21st Century surveys American geographers current research in their specialty areas and tracks trends and innovations in the many subfields of geography As such it is both a state of the discipline assessment and a topical reference It includes an introduction by the editors and 47 chapters each on a specific specialty The authors of each chapter were chosen by their specialty group of the American Association of Geographers AAG Based on a process of review and revision the chapters in this volume have become truly representative of the recent scholarship of American geographers While it focuses on work since 1990 it additionally includes related prior work and work by non American geographers The initial Geography in America was published in 1989 and has become a benchmark reference of American geographical research during the 1980s This latest volume is completely new and features a preface written by the eminent geographer Gilbert White

Recipes and Songs Razia Parveen, 2017-02-04 This book presents a systematic approach to the literary analysis of cultural practices Based on a postcolonial framework of diaspora the book utilizes literary theory to investigate cultural phenomena such as food preparation and song Razia Parveen explores various diverse themes including the female voice genealogy space time and diaspora and applies them to the analysis of community identity This volume also demonstrates how a literary analysis of oral texts helps to provide insight into women s lived narratives For example Parveen discusses how the notion of the third space creates a distinctly feminine spatiality

Thinking Geographically Brendan Bartley, Phil Hubbard, Rob Kitchin, 2004-10-01 Thinking Geographically offers students and faculty alike an elegant concise and thorough overview of contemporary theoretical concerns in geography Easily accessible to those unfamiliar with social theory this volume pushes the envelope of understanding by sketching the contours of post structuralist spatial thought including such critical emerging topics as geographies of text the body money and globalisation Brief biographies of influential theorists demonstrate how ideas are embodied and personified This volume is highly useful for courses in human geography the history and status of the discipline and will stand as a milestone in the

discipline's conceptual understanding over the next decade or more Barney Warf Florida State University The last decade has seen Geography transformed by an astonishing range of cultural and philosophical concepts and approaches Thinking Geographically is designed for students as an accessible and enjoyable introduction to this new landscape of geographical ideas The book takes the reader through the history of geographic thought up to a survey of the present Contemporary theory is then used to explore real world issues drawn from across the discipline of social cultural political and economic geography Entertainingly written and packed with examples and with profiles of key theorists the book is an ideal introduction for any student who wants to discover the potential of thinking geographically

Readings in Law and Popular Culture Guy Osborn, Steve Greenfield, 2006 Fascinating and varied this is the first book to bring together high quality research with an emphasis on context from key researchers working at the cutting edge of both law and cultural disciplines

Instruction and Training for Enhanced Reference Service, 1998 *The Sounds of People and Places* George O. Carney, 2003 The new edition of this popular anthology brings together the best recent essays by distinguished geographers on region music and their interrelatedness While emphasizing the regional nature of American music the book introduces geographical concepts such as location factors spatial organization distribution and diffusion The study follows the paths of four types of American folk and popular music gospel country jazz and rock from their origins to their geographic centers

Environment and Planning, 2007 International interdisciplinary journal discussing the relations between Society and Space Space is broadly conceived from landscapes of the body to global geographies from cyberspace to old growth forests as metaphorical and material as theoretical construct and empirical fact Covers both practical politics and the abstractions of social theory
