

Teacher Guide to Unfinished Mysteries

Why Unfinished Stories?

Unfinished stories are a great way to help students be creative. Sometimes students find it hard to write a story. It can be difficult to come up with new ideas and some students suffer from the mistaken belief that they don't have talent or that they don't know how to write. In fact, good writing is a matter of practice. The more students write (and read), the easier they will find it to write more! Giving students the beginning of a story helps get them past these initial misgivings by providing a setting, some characters, and a plot direction. That makes it easier to get going and start practicing writing!

Why Mysteries?

There are many kinds of story prompts (click [here for some other unfinished stories](#) from my indie publishing company, Alphabet Publishing). This activity presents a mystery. First, mysteries are popular. People enjoy reading and trying to solve mysteries. So it's likely that these mysteries will engage your students and get them writing. The best part is that because students are writing half of the story, the mystery can never be too hard for them.

Mysteries also help develop critical thinking and close reading skills. Students read the story prompt and look for clues, synthesize different pieces of information to deduce, evaluate the difference between fact and opinion and truth and speculation, and think about what they can and cannot infer from a clue. When they write their ending, they have to apply those same skills to make a coherent and satisfying ending.

How to Use

First, I advise you to save one copy of the mystery and add the words "teacher copy". Then, make another copy and call it "student copy". Delete the link to this teacher guide and make sure it saves. Now you won't accidentally share the link to the teacher guide with your students.
