Scenes from an unfinished war Daniel P. Bolger, 1991 **Scenes from an unfinished war** Daniel P. Bolger, 1991 This paper discusses the extended period of low intensity conflict that North Korea conducted against South Korea in the mid to late 1960s This period of hostilities had its dramatic moments such as the seizure of the USS Pueblo but for the most part the tactics consisted of propaganda infiltration assassination plots and guerrilla warfare Because the war in Vietnam overshadowed these developments the unfinished war in Korea has largely been ignored by military officers studying the nature and demands of modern warfare In this sense the label forgotten war often applied to the conventional war of the early 1950s is much more applicable to the conflict on the peninsula from 1966 to 1969 It describes in detail the vast range of military operations short of war that an adversary can employ against countries supported by the United States and assesses how allied forces can adapt to the unexpected and devise countermeasures that if not completely effective can at least disrupt the designs of the adversary so he cannot obtain his primary objectives Through the exemplary leadership of General Charles H Bonesteel III it demonstrates the importance of personality in warfare and the essential need for officers to recognize the dominance of political considerations at the lower end of the conflict spectrum

Military Review, 2019-11 Rationality in the North Korean Regime David W. Shin, 2020-07-06 How and why are the Kims rational There is no consensus about either the Kims rationality or how best to determine if they are rational actors Rationality in the North Korean Regime offers a concise and finite method to assess rationality by examining over ten cases of provocations from the Korean War to the August 2015 land mine incident The book asserts that Kim Il sung was predominantly a rational actor though the regime behaved irrationally at times under his rule and that both Kim Jong il and Kim Jong un have clearly been rational actors As a rational actor Kim Jong un is unlikely to give up his nuclear weapons but this work argues he can be deterred from using them if the United States demonstrates it is willing to co exist with his

regime and pursues long term engagement to reduce Kim s concern that North Korea s sovereignty needs defending from U S hostile policy This could allow gradual social change within the country that could eventually lead to positive systemic change as well as soften Kim s rule In this regard time may be on the side of the U S South Korean alliance but the two allies must embrace the long view and learn to be more patient or risk another conflict on the Korean Peninsula
