In *The Mystery Novels of Wilkie Collins* readers are invited to delve into the intricate narratives that laid the groundwork for the modern detective genre. Collins adeptly weaves suspenseful plots characterized by meticulous attention to detail, rich characterizations, and an innovative use of unreliable narrators. His novels, such as *The Woman in White* and *The Moonstone*, serve as a mirror to Victorian society's anxieties regarding identity, gender, and morality, all while providing thrilling twists that keep readers on the edge of their seats. The book's literary style employs a blend of realism and sensationalism, making it an essential study for enthusiasts of Gothic literature and mystery fiction alike. Wilkie Collins, often heralded as the father of the mystery novel, was influenced by his career as a playwright and his close association with contemporary writers like Charles Dickens. His unique position within the cultural milieu of Victorian England allowed him to experiment with narrative forms and themes that reflected his own experiences as a man of literature and social reformer. Collins's personal struggles with health and his complex relationships with women infused his work with an authenticity that resonates deeply within his stories. **What's a Coal Miner to Do?** Keith Dix, 1988

For more than one hundred years, until the 1920s, coal production involved blasting a seam of coal and loading it by hand into a mine car. In the late 1920s, operators introduced machines into the mines, including the coal loader. In this book, Keith Dix explores the impact of technology on miners and operators during a crucial period in industrial history. Dix reconstructs the social, political, technical, and economic environment of the hand-loading era and then views the evolution of mechanical coal technology, including the inventions of Joseph Joy. He also examines the rise of the United Mine Workers under John L. Lewis and the expanded role of the state under New Deal legislation and regulations.      *Collier's*, 1928
