unpalatable truths about war Orwell's timeless uncompromising essays are more relevant entertaining and essential than ever in today's era of spin Why I Write George Orwell, 1946 Why I Write 1946 is an essay by George Orwell detailing his personal journey to becoming a writer It was first published in the Summer 1946 edition of *Gangrel* The editors of this magazine J B Pick and Charles Neil had asked a selection of writers to explain why they write The essay offers a type of mini autobiography in which he writes of having first completed poems and tried his hand at short stories and carried on a continuous story about himself in his head before finally becoming a full fledged writer It goes on to set out some important motives for writing Why I Write? Bohumil Hrabal, 2019-10-01 This collection of the earliest prose by one of literature's

greatest stylists captures as scholar Arnault Mar chal put it the moment when Hrabal discovered the magic of writing Taken from the period when Bohumil Hrabal shifted his focus from poetry to prose these stories many written in school notebooks typed and read aloud to friends or published in samizdat often showcase raw experiments in style that would define his later works Others intriguingly utilize forms the author would never pursue again Featuring the first appearance of key figures from Hrabal's later writings such as his real life Uncle Pepin who would become a character in his later fiction and is credited here as a coauthor of one piece the book also contains stories that Hrabal would go on to cannibalize for some of his most famous novels All together Why I Write offers readers the chance to explore this liminal phase of Hrabal's writing Expertly interpreted by award winning Hrabal translator David Short this collection comprises some of the last remaining prose works by Hrabal to be translated into English A treasure trove for Hrabal devotees Why I Write allows us to see clearly why this great prose master was as described by Czech writer and publisher Josef kvoreck fundamentally a lyrical poet

On Coming into Possession of Oneself Donnel B. Stern, 2024-09-05 This book is Donnel B. Stern's latest contribution to the kind of understanding of the psychotherapeutic and psychoanalytic process offered by field theory. Stern anchors his understanding of therapeutic action in the freedom of both patient and analyst to create a meaningful experience with minimum inhibition. The field's capacity to generate meaning and thus to make possible fully realized human living flows from its freedom to respond spontaneously to the feelings, wants, and needs of its participants. To whatever extent this spontaneity is diminished as it is in unconscious mutual enactment, we can be sure that some part of the field is frozen or otherwise rigidified. This position serves as the foundation of the psychoanalysis that Stern practices. The analyst aims to feel their way into compromises in the field and then do whatever they can to grasp and dissolve them, knowing that they will have to be revisited repeatedly and dissolved again. These insights into interpersonal and relational field theory lead to descriptions of clinical interventions that are focused on the moment-to-moment emotional experience of both the patient and the analyst. With valuable contributions to theory and emotionally immediate clinical vignettes, this book is essential for all psychoanalysts and psychoanalytic psychotherapists wishing to understand how the analyst's interventions grow from the analyst's emotional involvement in the clinical process.

Studies in Nietzsche and the Judaeo-Christian Tradition James C. O'Flaherty, Timothy F. Sellner, Robert M. Helm, 2020-05-01 This collection of essays is a sequel to the editors' 1976 volume *Studies in Nietzsche and the Classical Tradition*. Philosophers, theologians, and literary historians discuss important aspects of Nietzsche's attack on Judaism and Christianity. The book contains studies of his view of biblical figures Luther and Pascal, as well as comparisons of his thought with that of Spinoza, Lessing, Heine, and Kierkegaard. Nietzsche's critique of the Old Testament, the Jewish religion of the diaspora, and historical Christianity are also investigated. Of the eighteen articles included here, thirteen were prepared expressly for this volume; five were translated from German, one from French, and one from Hebrew. Contributors to this volume are Eugen Biser, Harry Neumann, Israel Eldad, Charles Lewis, Jorg Salaquarda, Joan Stambaugh, Max L. Baeumer, Brendan Donnellan, Diana Behler, Sander L. Gilman, Gerd Gunther, Grau, Josef Simon, James C. O'Flaherty, Bernd Magnus, Georges Goedert, Hans Lung, and Karl Barth.

The Opposite of Fate Amy Tan, 2003 The author reflects on her family's Chinese-American legacy, her experiences as a writer, her survival of natural disasters, and her struggle to manage three family members afflicted with brain disease.
