The Collapsing Universe:

The Collapsing Universe Isaac Asimov,1980-03-03 In a world of starquakes anti matter red giants and white dwarfs a star more massive than our own sun can disappear into a black hole from which not even light can escape When this happens the laws of physics have no meaning Here is one of the great detective stories of modern science followed to its conclusion by one of the most respected scientists writing today It is a totally absorbing investigation of a phenomenon only recently discovered that may explain the mysterious 30 megaton blast that flattened a Siberian forest in 1908 and that may ultimately be responsible for the collapse of the present universe book cover **The Collapsing Universe** Isaac Asimov,1977 The Collapsing Universe Isaac Asimov,1977-01-01 *The collapsing Universe* Isaac Asimov,1975 **The Collapsing Universe** Lars Wåhlin,1985-01-01 Collapsing Univrse Isaac Asimov,1981-11-03 In a world of starquakes anti matter red giants and white dwarfs a star more massive than our own sun can disappear into a black hole from which not even light can escape When this happens the laws of physics have no meaning Here is one of the great detective stories of modern science followed to its conclusion by one of the most respected scientists writing today It is a totally absorbing investigation of a phenomenon only recently discovered that may explain the mysterious 30 megaton blast that flattened a Siberian forest in 1908 and that may ultimately be responsible for the collapse of the present universe book cover **The Physics of Christianity** Frank J. Tipler,2008-08-19 A highly respected physicist demonstrates that the essential beliefs of Christianity are wholly consistent with the laws of physics Frank Tipler takes an exciting new approach to the age old dispute about the relationship between science and religion in *The Physics of Christianity* In reviewing centuries of writings and discussions Tipler realized that in all the debate about science versus religion there was no serious scientific research into central Christian claims and beliefs So Tipler embarked on just such a scientific inquiry *The Physics of Christianity* presents the fascinating results of his pioneering study Tipler begins by outlining the basic concepts of physics for the lay reader and brings to light the underlying connections between physics and theology In a compelling example he illustrates how the God depicted by Jews and Christians the Uncaused First Cause is completely consistent with the Cosmological Singularity an entity whose existence is required by physical law His discussion of the scientific possibility of miracles provides an impressive credible scientific foundation for many of Christianity's most astonishing claims including the Virgin Birth the Resurrection and the Incarnation He even includes specific outlines for practical experiments that can help prove the validity of the miracles at the heart of Christianity Tipler's thoroughly rational approach and fully accessible style sets *The Physics of Christianity* apart from other books dealing with conflicts between science and religion It will appeal not only to Christian readers but also to anyone interested in an issue that triggers heated and divisive intellectual and cultural debates The Natural History of Creation Michael Anthony Corey,1995 *The Natural History of Creation* is the third and final installment in M A Corey's natural theology series This remarkable trilogy has worked in tandem with the findings of modern science to help spearhead the

rebirth of the once dead natural theology movement In this detailed yet easy to read work the author focuses on the religious account of creation found in Genesis One and comes to the astonishing conclusion that there is indeed much scientific truth to be found in this ancient work Many other writers have also noticed the breathtaking parallels that exist between modern evolutionism and the creation account given in the Bible but nowhere will the reader find a more thorough description of them than in *The Natural History of Creation* Back cover *Current Topics In Astrofundamental Physics - Proceedings Of The 2nd Course In The International School Of Astrophysics "D Chalonge"* Normalized Sanchez, Antonino Zichichi, 1993-08-27
