Tie Tease:

Breeding Miniature Horses & Shetland Ponies , *Urban Communication* Timothy A. Gibson, Mark Douglas Lowes, 2007
City leaders now confront a global competition for economic investment and urban elites are casting about for strategies that promise to secure a share of this future of global economic growth. However, many of these strategies are largely symbolic in nature. City leaders, for example, compete for the Olympics so they can broadcast spectacular urban vistas to global television audiences. Officials pour public funds into tourist amenities to cultivate an image of vitality and renewal. But how are the local politics of urban redevelopment intertwined with the global politics of circulating vital urban images? *Urban Communication* brings together scholars from communication, cultural studies, and urban sociology to explore the symbolic dimensions of contemporary city building, drawing on case studies from around the world. **Ribbons of Grace** Maxine Alterio, 2008-02-14
A gripping story of love and deception on the Otago Gold Fields of nineteenth-century New Zealand Arrowtown, a goldfield settlement with an explosive mix of inhabitants, is the scene of an unlikely love story. Ming Yuet, a young Chinese woman seeking riches, disguises herself as a male miner and comes to the goldfields where she meets Conran, an Orcadian stonemason escaping a family tragedy. A secret love affair develops amidst suspicion, fear, and hostility, culminating in an act of violence that irrevocably shatters the lives of those involved. Maxine Alterio's beautiful novel about love, forgiveness, alienation, and friendship moves between past and present, homeland and adopted country, and from the living to the deceased. **A Reconstruction of Proto-Ainu** Vovin, 2023-07-31
This volume offers a reconstruction of the Proto-Ainu language based on the comparative method and internal reconstruction. The book is divided into three parts: the first is dedicated to the reconstruction of Proto-Ainu phonology, vocalism, consonantism, and prosody; the second represents a vocabulary of reconstructed Proto-Ainu lexical items; and the third deals with the problem of the genetic affiliation of the Ainu language. This problem has been approached in the present study from the point of view of the systematic comparisons of reconstructions, not the straight comparisons of the forms attested exclusively in modern languages, which was the major setback of the previous scholarship on the genetic affiliation of the Ainu language. This volume also includes the nineteenth-century vocabulary of the Kuril Ainu by I. Voznesenskii, previously unknown to the scholars. **Sexy Encounters** Carole Pasahow, 2003-01-01
